### Table of Contents:

**Section 1 Introduction**
1. Principles and practice - overview  
   Marcello Lotti and Margit L. Bleecker
2. Evaluating suspected work-related neurological disorders (clinical diagnosis)  
   Marcello Lotti and Michael J. Aminoff
3. Neuropsychological evaluation and exposure to neurointoxicants  
   Rosemarie Bowler and Muriel Lezak
4. Exposure assessment for chemical and physical agents  
   Angelo Moretto
5. The mechanisms of neurotoxicity and the selective vulnerability of nervous system sites  
   Martin A. Philbert and Laura L. Kubik

**Section 2 Neurobehavioral disorders associated with exposure to neurointoxicants**
6. Occupation and the risk of developing a chronic toxic leukoencephalopathy  
   Christopher M. Filley
7. Neurotoxicity of solvents  
   Markku Alarik Sainio Sr.
8. Hydrogen sulfide intoxication  
   Tee L. Guidotti
9. The neurotoxicity of organochlorine and pyrethroid pesticides  
   Lucio G. Costa
10. Organophosphate and Carbamate Insecticide Poisoning  
    Allister Vale and Marcello Lotti
11. Neurotoxicity of metals  
    Michael Aschner

**Section 3 Movement disorders (Parkinsonism or other movement disorders)**
12. Extrapyramidal system neurotoxicity: animal models  
    David C. Dorman
13. Occupational exposures and parkinsonism  
    William M. Caudle
14. Tremor secondary to neurotoxic exposure: mercury, lead, solvents, pesticides  
    Roberto G. Lucchini and Dana Hashim

**Section 4 Toxic neuropathies**
15. Clinical descriptions of toxic neuropathies  
    Ann Little and James W. Albers

**Section 5 Special sensory organ systems**
16. Neurotoxic exposure and impairment of the chemical senses of taste and smell  
    Richard L. Doty
17. Retinal and visual system: occupational and environmental toxicology  
    Donald A. Fox
18. Hearing  
    Mariola Sliwinska-Kowalska

**Section 6 Musculoskeletal disorders**
19. Mechanical stress  
    Stephen Bao
20. Low back pain  
    Francesco Violante and Roberta Bonfiglioli
21. Occupational mononeuropathies in industry  
    Roberta Bonfiglioli, Stefano Mattioli and Francesco Violante
22. Upper extremity and neck disorders associated with keyboard and mouse use  
    Stefano Mattioli, Francesco Violante and Roberta Bonfiglioli

**Section 7 Other neurological disorders and work restriction/accommodation**
23. Sleep deprivation due to shift work  
    Giovanni Costa
24. Headache and migraine: a leading cause of absenteeism  
    Khosrow Baigi, Walter Francis Stewart and Richard B. Lipton
25. Traumatic brain injury  
    Deborah M. Little
26. The complex region pain syndrome  
    Anne Louise Oaklander and Steven H. Horowitz
27. Accommodation of workers with chronic neurologic disorders-ADA  
    Margit L. Bleecker and Sheryl K. Barnes
