

## Table of contents

Contributors

Preface

Acknowledgments

### **SECTION 1: FUNDAMENTALS OF PEDIATRICS**

*Section Editor: Thomas G. DeWitt*

1. Role of the Pediatrician, *Thomas G. DeWitt and Neal Halfon*
2. Decision-Making: Use of Evidence-Based Medicine, *Suresh Nagappan and Kenneth B. Roberts*
3. Communication, *Elizabeth A. Rider*
4. Interviewing Techniques, *Christopher F. Bolling*
5. Systems of Practice and Office Management, *Peter Margolis*
6. Core Competencies, *Theodore C. Sectish*
7. Patient and Family-Centered Care, *Jeffrey M. Simmons, Stephen E. Muething, and Kathleen L. Dressman*
8. Disaster Preparedness, *Janet M. Berreman and Linda Rudolph*
9. Law, Ethics, and Clinical Judgment, *Angela Roddey Holder*

### **SECTION 2: HEALTH PROMOTION AND DISEASE PREVENTION**

*Section Editor: Eve R. Colson*

#### **Part 1: Health Maintenance Issues**

10. Well-Child Care, *Judith S. Shaw and Judith S. Palfrey*
11. Child Development, *Ilgı Ozturk Ertem and Carol Cohen Weitzman*
12. Screening, *Ada M. Fenick*
13. Oral Health Supervision, *Ada M. Fenick and Linda P. Nelson*
14. Complementary and Alternative Medicine (CAM), *Anju Sawni*
15. Culture and Pediatric Practice, *Sakena Abedin*
16. Gay and Lesbian Parents, *Cindy M. Schorzman and Melanie A. Gold*
17. Environmental Pediatrics, *Ruth A. Etzel*
18. Travel Medicine, *Joseph A. Zenel and Chandy C. John*

#### **Part 2: Managing Family Transition**

19. Family Function and Birth of a Child, *William I. Cohen*
20. Foster Care and Adoption, *Brad D. Berman and Carol Cohen Weitzman*
21. Family Discord and Divorce, *Michael Jellinek*
22. Supporting the Grieving Child and Family, *David J. Schonfeld*

### **SECTION 3: NUTRITION**

*Section Editor: Praveen S. Goday*

23. Normal Nutritional Requirements, *Praveen S. Goday*
24. Breast-Feeding, *Jane Morton and Ruth A. Lawrence*
25. Infant Formula and Complementary Foods, *Margaret Kirby*
26. Postdischarge Nutritional Management of the Premature Infant, *Utpala G. Das*
27. Nutritional Issues: Toddler to Adolescent, *Margaret Kirby and Praveen S. Goday*
28. Assessment of Nutritional Adequacy, *Praveen S. Goday*
29. Malnutrition and Refeeding, *Praveen S. Goday*
30. Poor Weight Gain, *Karen A. Francolla and Praveen S. Goday*
31. Approach to the Infant and Child with Feeding Difficulty, *Richard J. Noel*
32. The Overweight or Obese Child, *Michelle Smith-Beckley and Brian M. Fidlin*
33. Specialized Nutrition Support, *Praveen S. Goday*
34. Nutritional Access Devices, *Lillian Sablan and Karen Sherry*

### **SECTION 4: ABUSE, NEGLECT, VIOLENCE**

*Section Editor: John M. Leventhal*

35. Child Maltreatment: Neglect to Abuse, *John M. Leventhal and Andrea G. Asnes*
36. Family and Community Violence, *Renée Boynton-Jarrett and Robert Sege*
37. Child Abuse Prevention: What Pediatricians Can Do, *Wendy Gwartzman and Howard Dubowitz*

### **SECTION 5: NEWBORN**

*Section Editors: Alan H. Jobe and James M. Greenberg*

## **Part 1: Care of the Newborn**

38. Historical Perspectives, *James G. Greenberg*
39. Care of the Fetus, *Alan H. Jobe*
40. Fetal Disorders, *Timothy M. Crombleholme and Foong-Yen Lim*
41. Neonatal Mortality and Morbidity, *Avroy A. Fanaroff*
42. Delivery Room Resuscitation, *Myra H. Wyckoff*
43. Transitional Changes in the Newborn, *David P. Carlton*
44. Examination of the Newborn Infant, *Joseph A. Zeneel*
45. Postnatal Care and Observation, *Anthony E. Burgos*

## **Part 2: Infants at Risk**

46. Multiple Births, *James M. Greenberg*
47. The Small for-Gestational Age Infant, *William W. Hay, Jr.*
48. Infant of a Diabetic Mother, *Heather Morein French and Rebecca A. Simmons*

## **Part 3: Specific Neonatal Conditions**

49. Approach to the Cyanotic Infant, *Robin H. Steinhorn*
50. Abnormalities of the Lungs, *M. Grisel Galarza and Ilene R.S. Sosenko*
51. Metabolic Abnormalities, *William W. Hay, Jr.*
52. Brain Abnormalities and Injuries, *Seetha Shankaran and C. Michael Cotton*
53. Hematologic Abnormalities and Jaundice, *Henry C. Lee and Ashima Madan*

## **Part 4: Disorders Specifically Related to Preterm Birth**

54. Respiratory Distress Syndrome, *Thomas N. Hansen and Samuel Hawgood*
55. Patent Ductus Arteriosus and Ductus Venosus, *Ronald I. Clyman*
56. Hemodynamics, *Nick Evans*
57. Necrotizing Enterocolitis, *Barbara Warner*
58. Intraventricular Hemorrhage, *Henrietta S. Bada*
59. Bronchopulmonary Dysplasia, *Alan H. Jobe*
60. Emergencies, *James M. Greenberg*
61. Special Intensive Care, *Thomas A. Parker*
62. Outcomes of Preterm and Term Infants, *Marilee C. Allen*

## **SECTION 6: PRINCIPLES OF ADOLESCENT CARE**

*Section Editors: Charles E. Irwin, Jr., Mary-Ann Shafer, and Anna-Barbara Moscicki*

### **Part 1: Growth and Development**

63. Somatic Growth and Development, *Charles E. Irwin, Jr.*
64. Reproductive Growth and Development in the Female Adolescent, *Melissa Slivka, Anna-Barbara Moscicki, and Mary-Ann Shafer*
65. Reproductive Growth and Development in the Male Adolescent, *David J. Breland and Mark L. Rubinstein*
66. Psychological Development, *Elizabeth M. Ozer and Charles E. Irwin, Jr.*
67. The Adolescent Visit, *Charles E. Irwin, Jr.*

### **Part 2: Health Problems of Adolescents**

68. Mortality, *Elizabeth M. Ozer*
69. Morbidity, *Charles E. Irwin, Jr.*
70. Sexual Behavior, *Erica B. Monasterio*
71. Substance Use and Abuse, *Stephanie N. Crewe and Arik V. Marcell*

### **Part 3: Mental Health Disorders in the Adolescent**

72. Depression, Anxiety, and Other Disorders, *Kim Peter Norman*
73. Disorders of Eating, *Kim Peter Norman, Sara M. Buckelew, and Andrea K. Garber*

### **Part 4: Reproductive Health Problems**

74. Breast Masses, *Jennifer C. Edman and Mary-Ann Shafer*
75. Scrotal Masses, *David J. Breland and Mark L. Rubinstein*
76. Menstrual Problems, *Jennifer C. Edman and Mary-Ann Shafer*
77. Intrauterine and Ectopic Pregnancy, *Erica B. Monasterio and Mary-Ann Shafer*
78. Contraception, *Erica B. Monasterio and Mary-Ann Shafer*

## **SECTION 7: DEVELOPMENTAL AND BEHAVIORAL PEDIATRICS**

*Section Editor: Martin T. Stein*

## **Part 1: General Concepts**

- 79. Introduction to Developmental and Behavioral Pediatrics, *Martin T. Stein*
- 80. Fundamental Concepts of Child Development, *W. Thomas Boyce and Jack P. Shonkoff*
- 81. Brain Development and Behavior, *Charles A. Nelson III*
- 82. Standardized Developmental Screening and Assessment Instruments, *Martin T. Stein*

## **Part 2: Developmental Variations to Disorder**

- 83. Crying in Infants, *Ronald G. Barr and Takeo Fujiwara*
- 84. Hyperactivity and Inattention, *Martin T. Stein and Michael I. Reiff*
- 85. Learning Problems, *Michael I. Reiff and Martin T. Stein*
- 86. Language Delay, *James S. Andrews and Heidi M. Feldman*
- 87. Difficult Behavior, *Martin T. Stein*
- 88. Anxiety, *Dorise A. Chavira*
- 89. Repetitive Behaviors, *Adrian D. Sandler*
- 90. Gender Identity and Sexual Behavior, *Kenneth J. Zucker*
- 91. Developmental Delay, *Nathan J. Blum*

## **Part 3: Major Psychopathologic Disorders**

- 92. Autistic Spectrum Disorders, *Michael I. Reiff*
- 93. Affective Disorders and Suicide, *Laura Prager, Steven C. Schlozman, and Michael Jellinek*
- 94. Pediatric Condition Falsification, *Herbert Schreier*
- 95. Childhood Schizophrenia, *Fred R. Volkmar*

## **Part 4: Psychosocial Context of Development and Behavior**

- 96. Families in the 21st Century: An Introduction to Families, *Laurie J. Baumann and Ruth E. K. Stein*
- 97. Nonparental Childcare, *Nerissa S. Bauer*
- 98. Vulnerable Child Syndrome, *Yi Hui Liu*
- 99. Adaptation to Illness, *David J. Schonfeld*
- 100. Poverty, Homelessness, and Social Disorganization, *Barry S. Zuckerman and Megan Sandel*
- 101. Resiliency in Children and Adolescents, *Saul Levine*

## **SECTION 8: THE ACUTELY ILL INFANT AND CHILD**

*Section Editors: Julio P. Perez Font and George Lister*

### **Part 1: Assessment of the Acutely Ill Infant and Child**

- 102. Respiratory Distress and Failure, *Julio P. Perez Font*
- 103. Decreased Perfusion and Circulatory Shock, *George E. Lister*
- 104. Acute Neurological Dysfunction, *Susan T. Arnold*
- 105. The Febrile Child, *M. Douglas Baker and Jeffrey R. Avner*

### **Part 2: Stabilization and Management of the Acutely Ill Infant and Child**

- 106. Monitoring of Vital Function, *George E. Lister*
- 107. Vascular Access, *Andreas A. Theodorou and Robert A. Berg*
- 108. Cardiopulmonary Resuscitation, *Mary Fran Hazinski*
- 109. Life Support Systems, *Julio P. Perez Font*
- 110. Stabilization and Transport, *Deborah Lerner, George Lister, and Julio P. Perez Font*
- 111. Management of Cerebral Edema and Elevated Intracranial Pressure, *Steven G. Kernie*
- 112. Perioperative Care, *Desmond B. Henry*
- 113. Pain Management and Sedation, *Alan Farrow-Gillespie*
- 114. Acute Metabolic Dysfunction, *Ralph J. DeBerardinis*

### **Part 3: Injuries and Untoward Events**

- 115. Acute Inflammation, *Clifford W. Bogue*
- 116. Trauma, Burns, and Bites, *Robert P. Foglia*
- 117. Submersion Injury, *Pamela J. Okada and M. Douglas Baker*
- 118. Foreign-Body Aspiration, *Margaret A. Kenna*
- 119. Apparent Life-Threatening Events and SIDS, *Michael J. Corwin*
- 120. Toxic Ingestions and Exposures, *Sing-Yi Feng, Collin S. Goto, and M. Douglas Baker*
- 121. Heat Stress, *Michael Apkon*
- 122. Poisonous Bites and Stings, *Dee Hodge III and Carl R. Baum*

## **SECTION 9: THE CHRONICALLY ILL INFANT AND CHILD**

Section Editors: Julio Pérez Fontán and George E. Lister

**Part 1: The Changing Outlook of Chronic Illness in Childhood**

123. Psychological and Behavioral Responses in Children and Their Families, *Patricia J. Hicks*

124. The Technology-Dependent Child, *John B. Gordon, Sarah P. Brown, Jerie Beth Karkos, and Lynn A. D'Andrea*

**Part 2: Death and Dying in Childhood**

125. Caring for Children Dying From Chronic Disease, *Arthur R. Ablin*

126. Hospice and Palliative Care, *Julie Hauer, Barbara L. Jones, and Joanne Wolfe*

127. Law, Ethics, and Caring Near the End of Life, *Angela Roddey Holder*

**SECTION 10: TRANSPLANTATION**

Section Editor: *Patrick J. Healey*

128. Pediatric Transplantation, *Patrick J. Healey*

129. Kidney Transplantation, *Jodi M. Smith and Ruth A. McDonald*

130. Liver Transplantation, *Patrick J. Healey*

131. Intestinal and Multivisceral Transplant, *Simon Horslen*

132. Heart Transplant, *Beth D. Kaufman*

133. Hematopoietic Cell Transplantation, *Ann E. Woolfrey, Paul A. Carpenter, and Jean E. Sanders*

**SECTION 11: INHERITED DISORDERS OF METABOLISM**

Section Editor: *Jean-Marie Saudubray*

**Part 1: Inborn Errors of Metabolism**

134. Principles of Inborn Errors of Metabolism, *Jean-Marie Saudubray and Joe T.R. Clarke*

**Part 2: Disorders of Amino Acid (AA) and Organic Acid (OA) Metabolism**

135. Hyperphenylalaninemias, *Bernd Christian Schwahn*

136. Disorders of the Tyrosine Metabolism, *Bernd Christian Schwahn*

137. Disorders of the Branched Chain Amino and Organic Acid Metabolism, *Stephen I. Goodman and Jean-Marie Saudubray*

138. Disorders of Sulfur-Containing Amino Acid Metabolism, *Bernd Christian Schwahn*

139. Disorders of Glycine, Serine, and Proline Metabolism, *Bernd Christian Schwahn*

140. Disorders of Metabolism of Lysine, Hydroxylysine, and Related Compounds, *Stephen I. Goodman*

141. Disorders of Metabolism of Neurotransmitter Amino Acids, *Jaak Jaeken*

142. Disorders of Creatine and Ornithine Metabolism, *Sylvia Stockler-Ipsiroglu*

143. Disorders of Amino Acid Transport Across Cell Membranes, *Kirsti Nenttö-Salonen and Ollie Simell*

144. Other Disorders of Amino Acid Metabolism, *Jean-Marie Saudubray*

145. Urea Cycle and Related Disorders, *Mendel Tuchman, Uta Lichter-Konecki, and Mark L. Batshaw*

**Part 3: Inborn Errors of Water Soluble Vitamins**

146. Introduction, *Stephen I. Goodman*

147. Vitamin B12 and Folic Acid, *David Watkins and David S. Rosenblatt*

148. Biotin Responsive Disorders, *Stephen I. Goodman*

149. Vitamin B6 and Vitamin B1 Responsive Disorders, *Jean-Marie Saudubray*

**Part 4: Disorders of Fatty Acid Oxidation, Ketogenesis, and Ketolysis**

150. Disorders of Fatty Acid Oxidation, *Stephen I. Goodman*

151. Disorders of Ketogenesis, *Stephen I. Goodman*

152. Disorders of Ketolysis, *Stephen I. Goodman*

153. Disorders of Leukotriene Synthesis and Fatty Aldehyde Dehydrogenase, *Stephen I. Goodman*

**Part 5: Carbohydrate Metabolism**

154. Disorders of Glycogen Metabolism, *Priya S. Kishnani and Yuan-Tsong Chen*

155. Disorders of Galactose and Fructose Metabolism and Gluconeogenesis, *Priya S. Kishnani and Yuan-Tsong Chen*

156. Disorders of Pentose Phosphate Pathway, *Priya S. Kishnani and Yuan-Tsong Chen*

157. Disorders of Glucose Transporters, *Renée Santer*

**Part 6: Disorders of Oxidative Phosphorylation and Pyruvate Oxidation**

158. Respiratory Chain Disorders, *Salvatore DiMauro*  
159. Disorders of Energy Metabolism, *Juan M. Pascual and Salvatore DiMauro*

#### **Part 7: Organelle Related Disorders**

160. Mucopolysaccharidosis, Glycoproteinosis, and Mucopolipidosis, *James Edmond Wraith*  
161. Sphingolipidoses, *Joe T.R. Clarke*  
162. Peroxisomal Disorders, *Dante Valle, Gerald V. Raymond, and Stephen J. Gould*  
163. Congenital Disorders of Glycosylation, *Jaak Jaeken*

#### **Part 8: Disorders of Lipid and Bile Acid Metabolism**

164. Disorders of Cholesterol Synthesis, *Peter T. Clayton*  
165. Disorders of Bile Acid Synthesis, *Peter T. Clayton*  
166. Disorders of Lipid and Lipoprotein Metabolism, *Peter O. Kwiterovich, Jr.*

#### **Part 9: Disorders of Nucleic Acids, Heme Metabolism, and Metals Transport**

167. Disorders of Heme Biosynthesis: The Porphyrrias, *Robert J. Desnick*  
168. Disorders of Purine and Pyrimidine Metabolism, *Georges van den Berghe*  
169. Disorders of Metal Metabolism, *Jean-Marie Saudubray*

### **SECTION 12: CLINICAL GENETICS AND DYSMORPHOLOGY**

*Section Editors: John C. Carey and Michael J. Bamshad*

#### **Part 1: The Genetic Approach to Disorders of Children**

170. Key Principles in Human Genetics, *Michael J. Bamshad and Lynn B. Jorde*  
171. Multifactorial Inheritance, *Lynn B. Jorde*  
172. Principles of Care, *Claire O. Leonard*

#### **Part 2: Chromosomal Disorders**

173. Human Cytogenetics, *Sarah T. South and John C. Carey*  
174. Chromosome Disorders, *John C. Carey*

#### **Part 3: Birth Defects, Malformations, and Syndromes**

175. Birth Defects, Malformations, and Syndromes, *John C. Carey and Michael J. Bamshad*  
176. Syndromes of Multiple Congenital Anomalies/Dysplasias, *John C. Carey*  
177. Craniofacial Disorders, *Carrie Lyn Heike and Michael L. Cunningham*  
178. Approach to the Child with Birth Defects, *John C. Carey and Michael J. Bamshad*  
179. Genetics Skeletal Disorders, *John C. Carey and Michael J. Bamshad*  
180. Congenital Contractures, *Michael J. Bamshad and John C. Carey*  
181. Connective Tissue Dysplasias, *Alan Rope*  
182. Neurocutaneous Disorders, *David H. Viskochil*  
183. Environmental Causes of Birth Defects, *Elizabeth Balken, Marsha Leen-Mitchell, Lynn P. Martinez, and Julia A. Robertson*  
184. Disorders of Accelerated Aging, *John C. Carey*  
185. Genetic Evaluation of Developmental Delay/Mental Retardation, *Agatino Battaglia and John C. Carey*

### **SECTION 13: IMMUNOLOGIC DISORDERS**

*Section Editor: Talal A. Chatila*

186. Overview of the Immune System, *Eli M. Eisenstein, Kathleen E. Sullivan, and Calvin B. Williams*  
187. Undue Susceptibility to Infection, *Talal A. Chatila*  
188. Primary Immunodeficiencies, *Talal A. Chatila*  
189. Complement Disorders, *Patricia C. Giclas and Ashley A. Frazer-Abel*

### **SECTION 14: ALLERGIC DISORDERS**

190. Allergic Disease and Atopy, *Talal A. Chatila*  
191. Clinical Aspects of Allergic Diseases, *Maria Garcia-Lloret*  
192. Allergic Rhinitis and Conjunctivitis, *Maria Garcia-Lloret*  
193. Anaphylaxis, Urticaria, and Angioedema, *Marc A. Riedel*  
194. Food Allergy, *Maria Garcia-Lloret*  
195. Insect Allergy, *Maria Garcia-Lloret*  
196. Latex Allergy, *Marc A. Riedel*  
197. Adverse Reactions to Drugs, *Marc A. Riedel*

### **SECTION 15: RHEUMATOLOGY**

Section Editor: Robert P. Sundel

**Part 1: General Principles in Rheumatology**

198. Pathogenesis of Inflammatory and Autoimmune Disorders, *Kathleen E. Sullivan*

199. History and Physical Exam, *Robert P. Sundel*

200. Diagnostic Testing in Rheumatology, *Peter A. Nigrovic*

**Part 2: Specific Rheumatologic Disorders**

201. Juvenile Idiopathic Arthritis, *Carol A. Wallace, David A. Cabral, and Robert P. Sundel*

202. Spondyloarthropathies, *David A. Cabral and Lori B. Tucker*

203. Vasculitides, *Katelyn C. Barron*

204. Systemic Lupus Erythematosus, Overlap Connective Tissue Diseases, and Mixed Connective Tissue Disease, *Paul D. Silverman*

205. Juvenile Dermatomyositis, *Lisa G. Rider*

206. Scleroderma, *Francesco Zulian*

**Part 3: Systemic Syndromes in Rheumatology**

207. Musculoskeletal Pain Syndromes, *Yukiko Kimura*

208. Chronic Fatigue Syndrome, *David S. Leslie*

209. Autoinflammatory Disorders, *Peter J. Hashkes*

**SECTION 16: THE MUSCULOSKELETAL SYSTEM**

Section Editor: *John A. Herring*

210. Growth and Development, *John G. Birch*

211. The Limping Child, *Lawson A.B. Copley*

212. Torsional and Angular Deformities, *Karl E. Rathjen*

213. Disorders of the Foot, *Charles E. Johnston*

214. Disorders of the Knee, *John A. Herring*

215. Developmental Dysplasia of the Hip, *David A. Podeszwa*

216. Disorders of the Neck and Spine, *Daniel J. Sucato*

217. Disorders of the Upper Extremity, *Marybeth Ezaki*

218. Injuries, *Philip Wilson*

219. Tumors, *B. Stephens Richards*

220. Neuromuscular Disorders, *Lori A. Karol*

221. Common Orthopedic Misses, *John A. Herring*

**SECTION 17: INFECTIOUS DISEASES**

Section Editors: *Anne A. Gershon and Peter J. Hotez*

**Part 1: Principles of Infectious Disease**

222. Bacterial Pathogenesis, *Janet R. Gilsdorf and Carl F. Marrs*

223. Bacteremia, Sepsis, and Septic Shock, *Stephanie H. Stovall and Richard F. Jacobs*

224. Viral Pathogenesis, *Anne Moscona and Anne A. Gershon*

225. Infection Control, *Margaret C. Fisher*

226. Diagnostic Approaches for Infectious Diseases, *John C. Christenson and E. Kent Korgenski*

227. Acute Fever without a Focus, *Steven Black*

228. Fever of Unknown Origin, *Russell W. Steele*

229. Fever and Infection in the Immunocompromised Patient, *David B. Haslam and Jeffrey Scott McKinney*

230. Therapy for Perinatal and Neonatal Infections, *David W. Kimberlin, Debra L. Palazzi, and Richard J. Whitley*

**Part 2: Infections of Organ Systems**

231. Bacterial Infections of the Central Nervous System, *Thomas S. Murray and Robert S. Baltimore*

232. Viral Infections of the Central Nervous System, *John F. Modlin*

233. Sexually Transmitted Infections, *Loris Y. Hwang, Anna-Barbara Moscicki, and Mary-Ann Shafer*

234. Bone, Joint, and Soft Tissue Infections, *Robin B. Churchill and Blanca E. Gonzalez*

235. Cardiac Infections, *Janet A. Stockheim and Stanford T. Shulman*

236. Gastrointestinal Infections, *Matthew B. Laurens and Michael S. Donnenberg*

237. Infections of the Liver, *M. Kyle Jensen and Grzegorz Telega*

238. Urinary Tract Infections, *Keith M. Krasinski*

239. Catheter-Associated Infections, *Marc Foca*

**Part 3: Infections of the Respiratory System**

240. Community-Acquired and Bacterial Pneumonia in Children, *Stephen I. Pelton*

241. Viral Respiratory Infections Including Influenza, *J. Robert Honegger and Michael T. Brady*

242. Fungal Respiratory Infections, *Hana Hakim and Aditya H. Gaur*

243. Infections of the Ear, *Jerome O. Klein*

**Part 4: Treatment and Prevention of Infectious Diseases**

244. Immunizations, *Kristina A. Bryant*

245. Antiviral Therapy, *David K. Hong and Charles G. Prober*

246. Antibacterial Therapy, *David K. Hong and Charles G. Prober*

247. Antifungal Therapy, *Patricia M. Flynn*

**Part 5: Bacterial Infections**

248. Actinomycosis, *Nahed Abdel-Haq and Ashir Kumar*

249. Anaerobic Infections, *Ayesha Mirza and Mobeen H. Rathore*

250. Clostridial Infections, *Jose Zayas and Mobeen H. Rathore*

251. Anthrax (*Bacillus anthracis*), *Denis Bratcher*

252. Arcanobacterium, *Dennis L. Murray*

253. *Bacillus cereus*

254. Brucellosis, *Ziad M. Shehab*

255. *Burkholderia* and *Pseudomonas*, *Jane L. Burns*

256. *campylobacter* Infections, *Guillermo M. Ruiz-Palacios*

257. Cat Scratch Disease, *Moshe Ephros and Michael Giladi*

258. Chancroid (*Hemophilus ducreyi*), *Mary Allen Staat*

259. Chlamydia, *Navjyot K. Vidwan and Mary Allen Staat*

260. Cholera, *Chokechai Rongkavilit and Ashir Kumar*

261. Diphtheria, *Gary D. Overturf*

262. Enterococci, *Dwight A. Powell*

263. *Haemophilus influenzae*, *Mark R. Schleiss and Arnold L. Smith*

264. *Legionella* Pneumonia, *Lorry G. Rubin*

265. Leptospirosis, *Anne A. Gershon and Michael Katz*

266. Listeriosis, *Ziad M. Shehab*

267. Lyme Disease, *Michael A. Gerber*

268. *Moraxella catarrhalis*, *Basim I. Asmar*

269. Tuberculosis (*Mycobacteria tuberculosis*), *Jeffrey R. Starke*

270. Nontuberculous Mycobacterial Infections, *Jeffrey R. Starke*

271. Leprosy, *Wayne M. Meyers, Françoise Portaels, and Douglas S. Walsh*

272. Buruli Ulcer (*Mycobacterium ulcerans* Infection), *Wayne M. Meyers, Françoise Portaels, and Douglas S. Walsh*

273. Mycoplasma Infections, *Julia A. McMillan*

274. *Meisseria gonorrhoeae*, *Mary Allen Staat*

275. *Neisseria Meningitidis*, *Michele Estabrook*

276. Nocardiosis, *Mahed Abdel-Haq and Ashir Kumar*

277. *Pasteurella multocida*, *Morven S. Edwards*

278. Pertussis, *Beverly L. Connelly*

279. Plague, *Gary D. Overturf*

280. Pneumococcal Infections, *Sandra R. Arnold and P. Joan Chesney*

281. Rat-Bite Fever, *Lorry G. Rubin*

282. Relapsing Fever, *Dennis L. Murray*

283. Salmonella, Shigella, and *Escherichia coli*, *Andrew T. Pavia*

284. Staphylococcus Infections, *Beverly L. Connelly*

285. Streptococcal Group A Infections, *Mark R. Schleiss and Edward L. Kaplan*

286. Group B Streptococcal Infections, *Morven S. Edwards*

287. Nongroup A or B Streptococci, *Dwight A. Powell*

288. Syphilis, *Mary Allen Staat*

289. Tetanus, *Gary D. Overturf*  
 290. Q Fever, *Gordon E. Schutze*  
 291. Tularemia, *Jessica Nichols, Stephanie H. Stovall, and Richard F. Jacobs*  
 292. *Ureaplasma urealyticum* Infections, *Tara M. Randis and Adam J. Ratner*  
 293. *Yersinia enterocolitica* Infections, *Basim I. Asmir*  
 294. Rickettsial Infections, *Gordon E. Schutze*

#### **Part 6: Fungal Infections**

295. Aspergillosis, *Deborah Lehman*  
 296. Blastomycosis, *Dwight A. Powell*  
 297. Candida, *Katherine M. Knapp*  
 298. Coccidioidomycosis, *Mark R. Schleiss*  
 299. Cryptococcosis, *Deborah Lehman*  
 300. Histoplasmosis, *Martin B. Kleiman*  
 301. *Pneumocystis furfur*, *Dwight A. Powell*  
 302. Microsporidiosis, *Luis F. Barroso II and Richard L. Guerrant*  
 303. Sporotrichosis, *Donna M. Nobile and Martin B. Kleiman*  
 304. Zygomycosis (Mucormycosis), *Rebecca C. Brady*

#### **Part 7: Viral Infections**

305. Arboviruses, *Jason Brophy and Elizabeth Lee Ford-Jones*  
 306. Enterovirus Infections, *José R. Romero*  
 307. Hemorrhagic Fevers, *Eileen C. Farnon, Thomas G. Ksiazek, and Ali S. Khan*  
 308. Viral Hepatitis, *Henry Pollack and William Borkowsky*  
 309. Herpes Simplex Virus Infections, *David K. Hong and Charles G. Prober*  
 310. Cytomegalovirus, *Mark R. Schleiss*  
 311. Epstein-Barr Virus (EBV) Mononucleosis, *W. Garrett Hunt and Michael T. Brady*  
 312. Human Herpesviruses 6 and 7, *Mark R. Schleiss*  
 313. Human Herpesvirus 8, *Mark R. Schleiss*  
 314. Varicella-Zoster Virus Infections, *Sophie Hambleton*  
 315. Human Immunodeficiency Virus Type 1 Infection, *Michael T. Brady*  
 316. Measles, *William J. Moss and Samuel L. Katz*  
 317. Molluscum Contagiosum, *Magdalene A. Dohil and Lawrence F. Eichenfield*  
 318. Mumps, *Dennis L. Murray*  
 319. Human Parvovirus, *Peggy Sue Weintrub*  
 320. Rubella, *Maria Jevitz Patterson*  
 321. Rabies, *Peggy Sue Weintrub*  
 322. Smallpox, *Anne A. Gershon*

#### **Part 8: Parasitic Infections--Nematodes**

323. Antiparasitic Therapy, *Melissa Hold and Michael Cappello*  
 324. Ascariasis, *John S. Schieffelin and Richard A. Oberhelman*  
 325. Baylisascariasis, *John S. Schieffelin and Richard A. Oberhelman*  
 326. Dracunculiasis, *John S. Schieffelin and Richard A. Oberhelman*  
 327. Enterobiasis (Pinworm), *Richard A. Oberhelman*  
 328. Lymphatic Filariasis and Onchocerciasis, *Doran L. Fink and Thomas B. Nutman*  
 329. Hookworm, *Melissa Held and Michael Cappello*  
 330. Strongyloidiasis, *Richard A. Oberhelman*  
 331. Toxocariasis (Visceral and Ocular Larva Migrans), *Richard A. Oberhelman and Peter J. Hotez*  
 332. Trichinosis, *Richard A. Oberhelman*  
 333. Trichuriasis, *John S. Schieffelin and Richard A. Oberhelman*  
 334. Anasakiasis and Angiostrongyliasis, *Richard A. Oberhelman*

#### **Part 9: Parasitic Infections--Trematodes**

335. Foodborne Trematodiasis and Schistosomiasis, *Jennifer Keiser and Jörg Utzinger*  
 336. Diphyllorhynchiasis, *Hector H. Garcia and Robert H. Gilman*  
 337. Dipylidiasis, *Hector H. Garcia and Robert H. Gilman*  
 338. Echinococcosis, *Hector H. Garcia, Saul Santivanez, and Robert H. Gilman*  
 339. Hymenolepiasis, *Hector H. Garcia and Robert H. Gilman*

340. Taeniasis and Cysticercosis, *Gary D. Overturf*

**Part 10: Parasitic Infections--Protozoa**

341. Amebiasis, *Ibne Karim M. Ali and William A. Petri, Jr.*

342. Babesiosis, *Peter J. Krause*

343. Balantidiasis, *Eduardo Ortega-Barria and Elidia Dominguez*

344. *Blastocytis hominis*

345. Cryptosporidiosis, *Luis F. Garroso, II, and Richard L. Guerrant*

346. Cyclosporiasis, *Cirle Alcantara Warren and Richard L. Guerrant*

347. Dientamoebiasis, *Annis L. Murray*

348. Free-Living Amebic Infections, *Ibne Karim M. Ali and William A. Petri, Jr.*

349. Giardiasis, *Richard A. Oberhalman*

350. Isosporiasis, *Cirle Alcantara Warren*

351. Leishmaniasis, *Eduardo Ortega-Barria and Luz I. Romero*

352. Malaria, *Chandy C. John*

353. Pneumocystis Pneumonia, *Walter T. Hughes*

354. Toxoplasmosis, *Nicole M. A. Le Saux*

355. Trypanosomiases, *Eduardo Ortega-Barria*

**SECTION 18: DISORDERS OF THE SKIN**

*Section Editors: Beth Drolet and Sheila S. Galbraith*

356. Functional Overview, *Brook E. Tlougan and Amy S. Paller*

357. Neonatal Dermatology, *Sheila S. Galbraith*

358. Disorders of the Epidermis, *Kristen E. Holland*

359. Disorders of the Dermis and Subcutaneous Tissue, *Anita N. Haggstrom*

360. Genetics Disorders of the Skin, *Brook E. Tlougan and Amy S. Paller*

361. Melanocytic Lesions and Disorders of Pigmentation, *Julie V. Schaffer and Seth J. Orlov*

362. Immunologic Diseases, *Julie Prendiville*

363. Neoplastic and Proliferative Disorders, *Victoria R. Barrio and Lawrence F. Eichenfield*

364. Vascular Tumors and Malformations, *Ilona J. Frieden and Sheilagh M. Maguiness*

365. Acne and Other Disorders of the Pilosebaceous Unit, *Sara W. Dill and Bari B. Cunningham*

366. Disorders of Nails, *Liborka Kos*

367. Skin Infections and Exanthems, *Jane S. Bellet and Anthony J. Mancini*

368. Infestations, *Denise W. Metry*

**SECTION 19: DISORDERS OF THE EAR, NOSE, AND THROAT**

*Section Editor: Joseph Kerschner*

369. The Ear, *John H. Greinwald Jr., Margaret A. Kenna, and Blake C. Papsin*

370. Nose and Sinus, *Ellen S. Deutsch and Cecille G. Sulman*

371. The Pharynx and Upper Airway, *Marshall E. Smith*

372. The Head, Face, and Neck, *Craig S. Derkay and Michael J. Cunningham*

373. Head and Neck Masses, *David E. Tunkel and Jonathan A. Perkins*

**SECTION 20: DISORDERS OF THE ORAL CAVITY**

*Section Editors: Howard L. Needleman and Stephen Shusterman*

374. Dental Caries, *Man Wai Ng and Isabelle I. Chase*

375. Dental Emergency Care, *Howard L. Needleman and Brian Grove*

376. Dental Occlusion and Its Management, *Richard Bruun and Sivabalan Vasudavan*

377. Periodontal and Gingival Health and Diseases, *Nadeem Y. Karimbux and David M. Kim*

378. Oral Pathology, *Andrew L. Sonis and Brian Grove*

379. Temporomandibular Joint Disorders, *Bonnie L. Padwa*

380. Behavioral Treatment Options in Pediatric Dentistry, *Stephen Shusterman and Linda P. Nelson*

**SECTION 21: DISORDERS OF THE GASTROINTESTINAL TRACT**

*Section Editor: Colin D. Rudolph*

**Part 1: Presenting Signs and Symptoms**

381. Normal Structure and Function of the Gastrointestinal Tract, *Alan N. Mayer*

382. Approach to the Child with Acute, Chronic, or Cyclic Vomiting, *B.U.K. Li*

383. Acute Abdominal Pain, *J. Craig Egan, John J. Aiken, and Colin D. Rudolph*

- 384. Chronic Abdominal Pain, *Adrian Miranda*
- 385. Diarrhea, *Ricardo A. Caicedo and Ivor D. Hill*
- 386. Constipation and Fecal Incontinence, *Manu R. Sood*
- 387. Upper and Lower Gastrointestinal Bleeding, *Richard J. Noel*
- 388. Abdominal Masses, *John C. Densmore and Keith T. Oldham*
- 389. Gastrointestinal Obstruction, *Pradeep Nazarey and Thomas T. Sato*
- 390. Protein-Losing Enteropathy, *Richard J. Noel*
- 391. Gastrointestinal Disorders Associated with Immunodeficiency, *Richard J. Noel*

**Part 2: Esophageal Disorders**

- 392. Anatomic Disorders of the Esophagus, *Dave R. Lal*
- 393. Disorders of Esophageal Motility, *Neelesh A. Tipnis*
- 394. Gastroesophageal Reflux and Other Causes of Esophageal Inflammation, *Colin D. Rudolph*
- 395. Other Esophageal Disorders, *Tonya Adamiak and Colin D. Rudolph*

**Part 3: Congenital and Anatomic Disorders of the Stomach and Intestine**

- 396. Abdominal Wall Defects, *Danielle B. Peterson and Marjorie J. Arca*
- 397. Malrotation and Volvulus, *John J. Aiken*
- 398. Infantile Hypertrophic Pyloric Stenosis, *Rachel Adams Greenup and Casey M. Calkins*
- 399. Congenital Atresias, Stenosis, and Webs, *Andrea Winthrop and Jill Whitehouse*
- 400. Microgastria and Gastric Perforation, *Andrea Winthrop and Jill Whitehouse*
- 401. Duplications and Cysts, *Denise B. Klinkner and David M. Gourlay*
- 402. Omphalo-Mesenteric Duct Remnants, *Denise B. Klinkner and David M. Gourlay*
- 403. Meconium Diseases of Infancy and Distal Intestinal Obstruction Syndrome, *Pradeep Nazarey and Thomas T. Sato*
- 404. Intussusception, *John C. Densmore and Dave R. Lal*
- 405. Inguinal and Other Hernias, *John J. Aiken*
- 406. Superior Mesenteric Artery Syndrome, *Vincent F. Biank*
- 407. Motor Disorders of the Stomach, Small Bowel, and Colon, *Manu R. Sood and Casey M. Calkins*

**Part 4: Disorders of Digestion and Absorption**

- 408. Disorders of Digestion and Absorption, *Ivor D. Hill and Ricardo A. Caicedo*

**Part 5: Disorders of the Stomach and Intestine**

- 409. Inflammatory Disorders of the Stomach, *Ranjan Dohil and Eric Hassall*
- 410. Inflammatory Bowel Disease, *Michael C. Stephens, Subra Kugathasan, and Thomas T. Sato*
- 411. Allergic and Eosinophilic Gastroenteropathies, *B.U.K. Li*
- 412. Vascular, Systemic, and Other Disorders Affecting the Gastrointestinal Tract *Grzegorz Telega, Vince F. Biank, and B.U.K. Li*
- 413. Acute Appendicitis, Typhlitis, and Chronic Appendicitis, *J. Craig Egan and John J. Aiken*
- 414. Polyps and Tumors of the Gastrointestinal Tract, *Steve H. Erdman and Edward J. Hoffenberg*
- 415. Congenital Anomalies of the Anorectum, *Casey M. Calkins and Manu R. Sood*
- 416. Other Anorectal Disorders, *Judith M. Sondheimer*

**Part 6: The Exocrine Pancreas**

- 417. Disorders of the Exocrine Pancreas, *Steven L. Werlin*

**SECTION 22: DISORDERS OF THE LIVER AND BILIARY TRACT**

*Section Editor: Saul Karpen*

- 418. Structure and Function of the Liver, *Jonathan E. Teitelbaum*
- 419. Evaluation of the Infant and Child with Liver Disease, *Robert H. Squires, Jr.*
- 420. Autoimmune Disorders of the Liver, *Nada Yazigi*
- 421. Metabolic and Genetic Disorders of the Liver, *Frederick J. Suchy*
- 422. Drug, Toxin, and TPN Liver Disease, *Christopher D. Jolley, Regino P. Gonzalez-Peralta, and Beth A. Carter*
- 423. The Liver in Systemic Disease, *Maureen M. Jonas*
- 424. Acute Liver Failure, *Vicky Lee Ng*
- 425. End-Stage Liver Disease, *Vicky Lee Ng*
- 426. Other Disorders of the Liver, *Stephanie Abrams*
- 427. The Biliary Tract, *Colin D. Rudolph, Gregorz Telega, Vincent Biank, and Douglas S. Fishman*

## **SECTION 23: DISORDERS OF THE BLOOD**

*Section Editor: George R. Buchanan*

### **Part 1: Principles of Blood Disorders**

428. Approach to Suspected Hematologic Disorders, *George R. Buchanan*

429. Hematopoiesis, *Charles T. Quinn*

### **Part 2: Disorders of Red Blood Cells and Anemia**

430. Anemia, *Matthew M. Heeney*

431. Iron Deficiency, *Matthew M. Heeney*

432. Anemia Due to Diminished Red Blood Cell Production, *Zora R. Rogers*

433. Hemolytic Anemia, *Amber Mayfield Yates and Russell E. Ware*

434. Hemoglobinopathies, *Charles T. Quinn*

### **Part 3: Disorders of Coagulation and Platelets**

435. Normal and Abnormal Coagulation, *Janna M. Journeycake, Anthony K. C. Chan, and Janet Yang*

436. Inherited Bleeding Disorders, *Amy L. Dunn, Shannon L. Meeks, and Thomas C. Abshire*

437. Acquired Coagulation Disorders, *Guy Young*

438. Diagnosis and Management of Thrombosis, *Janna M. Journeycake and Anthony K. C. Chan*

439. Disorders of Platelets, *Cindy E. Neunert and Donald L. Yee*

### **Part 4: Disorders of the Spleen and Lymph Nodes**

440. The Spleen and Lymph Nodes, *Shelley E. Crary*

### **Part 5: Disorders of White Blood Cells,**

441. Disorders of Granulocytes, *R. Alexander Blackwood and Lawrence A. Boxer*

### **Part 6: Principles of Transfusion**

442. Transfusion Medicine, *Cassandra D. Josephson*

## **SECTION 24: NEOPLASTIC DISORDERS**

*Section Editor: Robert J. Arceci*

### **Part 1: Principles of Oncology**

443. Cancer Genetics and Biology, *David Malkin*

444. Epidemiology of Childhood Cancer, *Louise Parker*

445. Chemotherapy and Radiation Therapy, *Peter C. Adamson and Larry E. Kun*

446. Clinical Trials in Pediatric Oncology, *Malcolm A. Smith and Gregory H. Reaman*

447. Neonatal Oncology, *Sheila Weitzman, Yaron Finkelstein, and Robert J. Arceci*

448. Cancer Survivorship and Recommendations for Follow-Up, *Smita Bhatia and Anna Meadows*

### **Part 2: Hematologic Malignancies**

449. Acute Lymphoblastic Leukemia, *James B. Nachman*

450. Myeloid Malignancies, *Soheil Meshinchi, Robert J. Arceci, and Howard J. Weinstein*

451. Non-Hodgkin Lymphoma, *Mitchell S. Cairo and Thomas G. Gross*

452. Hodgkin Lymphoma, *Melissa M. Hudson and Tanya M. Trippett*

### **Part 3: Solid Tumors**

453. Osteosarcoma, *Richard Gorlick and Paul A. Meyers*

454. Ewing Sarcoma and Primitive Neuroectodermal Tumor, *Crystal L. Mackall and Jeffrey A. Toretsky*

455. Rhabdomyosarcoma, *Douglas S. Hawkins and Frederic G. Barr*

456. Renal Tumors, *Elizabeth Mullen*

457. Neuroblastoma, *Michael D. Hogarty and Garrett M. Brodeur*

458. Malignant Liver Tumors, *Gail E. Tomlinson and Howard M. Katzenstein*

459. Germ Cell Tumors, *Thomas A. Olson*

460. Brain Tumors and Spinal Tumors, *Kenneth J. Cohen and Ian F. Pollack*

461. Retinoblastoma, *Rima F. Jubran and Anna T. Meadows*

462. Vascular Neoplasms, *Denise M. Adams and Michael E. Kelly*

### **Part 4: Mononuclear Phagocytic System Disorders**

463. Histiocytic Disorders, *R. Maarten Egeler, Robert J. Arceci, and Jan-Inge Henter*

## **SECTION 25: DISORDERS OF THE KIDNEY AND URINARY TRACT**

*Section Editor: Norman D. Rosenblum*

### **Part 1: Principles of Nephrology**

464. Renal Morphogenesis, *Sunder Sims-Lucas and Carlton M. Bates*  
465. Development of Renal Function, *Tino D. Piscione*  
466. Fluid, Electrolyte, and Acid-Base Disorders, *Manjula Gowrishankar*  
467. Diagnostic Approach to Renal Disease, *John W. Foreman*

**Part 2: Abnormalities of the Kidney and Urinary Tract**

468. Kidney or Urinary Tract Disorders, *John W. Foreman*  
469. Renal Malformations, *Norman D. Rosenblum*  
470. Cystic Diseases of the Kidney, *Friedhelm Hildebrandt*  
471. Acute Renal Failure, *Prasad Devarajan*  
472. Glomerular Diseases, *Allison A. Eddy*  
473. Hereditary Cystinopathies, *Clifford E. Kashtan*  
474. Renal Tubular Disorders, *Michel Baum*  
475. Urinary Tract Stone Diseases, *Valerie Langlois*  
476. Urologic Abnormalities of the Genitourinary Tract, *Luis H.P. Braga and Darius J. Bogli*  
Part 3: Chronic Kidney Disease  
477. Chronic Kidney Disease, *Denis F. Geary*  
478. Chronic Dialysis, *Stuart L. Goldstein*  
479. Systemic Hypertension, *Craig W. Belsha and Joseph T. Flynn*

**SECTION 26: DISORDERS OF THE CARDIOVASCULAR SYSTEM**

*Section Editors: Julien I. E. Hoffman and David Teitel*

**Part 1: Principles of Cardiology**

480. Development of the Cardiovascular System, *Deepak Srivastava*  
481. Genetics of Heart Disease, *Kathleen M. Ruppel*

**Part 2: Approach to the Patient with Cardiovascular Disease**

482. Fetal Cardiology, *Lisa K. Hornberger and Jean Trines*  
483. Neonate and Infant with Cardiovascular Disease, *David Teitel*  
484. Congenital Heart Disease, *Julien I.E. Hoffman*  
485. Arrhythmias, *George F. Van Hare and Louis Larrick*  
486. Child and Adolescent with Cardiovascular Disease, *Howard P. Gutgesell and George M. McDaniel*

**Part 3: Acquired Cardiovascular Disease**

487. Cardiac Tumors, *Julien I.E. Hoffman*  
488. Kawasaki Disease, *Mary Beth Son and Jane W. Newburger*  
489. Diseases of Myocardium, *Jeffrey A. Towbin*  
490. Infective Endocarditis, *Jane W. Newburger*  
491. Pericardial Diseases, *Julien I.E. Hoffman*  
492. Pulmonary Hypertension, *Julien I.E. Hoffman*

**Part 4: Diagnostic Tools in Heart Disease**

493. Electrocardiography, *George F. Van Hare*  
494. Radiologic Imaging, *Alison Knauth Meadows and Michael W. Dae*  
495. Echocardiography, *Theresa A. Tacy*  
496. Cardiac Catheterization, *Phillip Moore*

**Part 5: Management of Patients with Cardiovascular Disease**

497. Heart Failure, *Robert E. Shaddy and Chitra Ravishankar*  
498. The Patient with Single Ventricle, *Jacqueline Kreutzer*  
499. Interventional Cardiology, *Phillip Moore*  
500. Health Care Management, *Mark Cocalis*  
501. Sudden Death, *Julien I.E. Hoffman*

**SECTION 27: DISORDERS OF THE RESPIRATORY SYSTEM**

*Section Editor: Jay K. Kolls*

**Part 1: Principles of Pulmonology**

502. Lung Growth in Infancy and Childhood, *Richard L. Auten*  
503. Physiologic Basis of Pulmonary Function, *Daniel J. Weiner*  
504. Global Burden of Respiratory Infections and Mucosal Immunology of the Respiratory Tract, *Jay K. Kolls and Joseph P. Mizgerd*

505. Clinical Presentation of Respiratory Illness, *Hans Pasterkamp*  
506. Tools for Diagnosis and Management of Respiratory Disease, *Beverly Newman and Geoffrey Kurland*

**Part 2: Disorders of the Respiratory System**

507. Congenital Disorders of the Lower Airways and Mediastinum, *Andrew Bush*  
508. Disorders of Respiratory Control and Sleep-Disordered Breathing, *David Gozal and Leila Kheirandish-Gozal*  
509. Sleep Disorders, *Hemant Sawnani and Narong Simakajornboon*  
510. Disorders Causing Airway Obstruction, *Shean J. Aujla and Jonathan E. Spahr*  
511. Aspiration Syndromes, *Cori L. Daines*  
512. Asthma, *Gurjit K. Khurana Hershey*  
513. Bronchopulmonary Dysplasia, *Timothy D. Murphy*  
514. Cystic Fibrosis, *David M. Orenstein*  
515. Interstitial Lung Disease, *Jennifer A. Rama and Leland L. Fan*  
516. Alpha-1 Antitrypsin Deficiency Lung Disease, *Terence R. Flotte and Christian Mueller*  
517. Pulmonary Vasculitis Syndromes, *Paul Rosen*  
518. Pulmonary Alveolar Proteinosis, *Bruce C. Trapnell and Lisa R. Young*  
519. Chest Wall and Respiratory Muscle Disorders, *Jonathan D. Finder*

**SECTION 28: DISORDERS OF THE ENDOCRINE SYSTEM**

*Section Editors: Allen W. Root*

520. Mechanisms of Hormone Action, *Adda Grimberg and Linda A. DeMeglio*  
521. Disorders of the Anterior Pituitary Gland, *Edward O. Reiter*  
522. Growth and Growth Impairment, *Edward O. Reiter*  
523. Endocrine Abnormalities Causing Growth Impairment, *Edward O. Reiter*  
524. Tall Stature, *Edward O. Reiter*  
525. Primary Disturbances in Water Homeostasis, *Abhinash Srivatsa and Joseph A. Majzoub*  
526. The Thyroid, *Delbert A. Fisher*  
527. Hypothyroidism in the Infant, *Delbert A. Fisher*  
528. Acquired Hypothyroidism in the Infant, *Delbert A. Fisher*  
529. Hyperthyroidism, *Delbert A. Fisher*  
530. Other Disorders of the Thyroid, *Delbert A. Fisher*  
531. The Adrenal Cortex, *Walter L. Miller*  
532. Evaluation of the Adrenal Function, *Walter L. Miller*  
533. Genetic Lesions in Steroidogenesis, *Walter L. Miller*  
534. Adrenal Insufficiency, *Walter L. Miller*  
535. Adrenal Excess, *Walter L. Miller*  
536. Glucocorticoid Therapy and Withdrawal, *Walter L. Miller*  
537. Endocrine Neoplasia Syndromes, *Steven D. Chernausek and Constantine A. Stratakis*  
538. Normal Human Sex Differentiation, *Melvin M. Grumbach*  
539. Disorders of Sexual Development (DSD), *Melvin M. Grumbach*  
540. Normal Pubertal Development, *Dennis M. Styne and Leonna Cuttler*  
541. Abnormal Pubertal Development, *Dennis M. Styne and Leonna Cuttler*  
542. Calcium, Phosphorus, and Magnesium Metabolism, *Allen W. Root*  
543. Disorders of Bone Formation, *Allen W. Root*  
544. Diabetes Mellitus in Children and Adolescents, *Arlan L. Rosenbloom*  
545. Endocrine Causes of Hypoglycemia, *Andrea Kelly and Charles A. Stanley*

**SECTION 29: DISORDERS OF THE NERVOUS SYSTEM**

*Section Editors: Scott L. Pomeroy, Blaise F. D. Bourgeois, Basil T. Darras, Edward M. Kaye*

**Part 1: Principles of Neurology**

546. Introduction to Neurology, *Mustafa Sahin*  
547. Clinical Approach to Neurologic Disease, *Maitreyi Mazumbar*

**Part 2: Abnormal Development of the Nervous System**

548. Cranial Development Abnormalities, *Omar Khwaja*  
549. Disturbances of the Neural Tube and Spine Closure, *Omar Khwaja*  
550. Macrocephaly and Microcephaly: Approach and Differential Diagnosis, *Nicole Ullrich*

### **Part 3: Acute Deterioration of Neurologic Function**

- 551. Trauma to the Nervous System, *Magdi M. Sobeih*
- 552. Stroke and Cerebrovascular Disease, *Michael J. Ravkin*
- 553. Hydrocephalus and Pseudotumor Cerebri, *Nicole Ullrich*
- 554. Cerebral Palsy and Static Encephalopathies, *Robert S. Rust and David K. Urion*
- 555. Infections of the Central Nervous System, *Kiran P. Maski and Nicole Ullrich*
- 556. Immune- and Inflammation-Mediated Central Nervous System Syndromes, *Mark P. Gorman*

### **Part 4: Epilepsy**

- 557. Epidemiology of Epilepsy, Seizure Classification, Epilepsy Syndromes, *Mark H. Libenson and Ann M. Bergin*
- 558. Etiologies of Epilepsies, *Annapurna Poduri*
- 559. Febrile Seizures, *Masanori Takeoka*
- 560. Evaluation of New Onset Seizures, *Alexander Rotenberg*
- 561. Status Epilepticus, *Alexander Rotenberg*
- 562. Antiepileptic Drug Therapy, *Blaise F. D. Bougeois*
- 563. Ketogenic Diet and Vagus Nerve Stimulation Therapy, *Ann M. Bergin*
- 564. Pediatric Epilepsy Surgery, *Dean P. Sarco*

### **Part 5: Paroxysmal Disorders**

- 565. Migraine and Headache Disorders, *Alyssa Ann LeBel and Ann Minster*
- 566. Movement Disorders, Tics, and Tourette Syndrome, *Diana Apetauerova*
- 567. Other Paroxysmal Disorders, *Sanjeev V. Kothare*

### **Part 6: Disorders of Strength, Tone, and Sensation**

- 568. General Evaluation of Strength, Tone, and Sensation, *Peter B. Kang and Basil T. Darras*
- 569. The Hypotonic Infant, *Basil T. Darras*
- 570. Peripheral Nerve Disorders and Anterior Horn Cell Diseases, *Peter B. Kang and Royden Jones*
- 572. Myopathies, *Basil T. Darras*

### **Part 7: Developmental Delay and Regression**

- 573. Neurologic Aspects of Disorders of Metal Metabolism, *Cecilia Mellado and Mustafa Sahin*
- 574. Lysosomal Storage Disorders, *Irina A. Anselm*
- 575. Rett Syndrome (MECP2-related disorders), *Cecilia Mellado and Mustafa Sahin*
- 576. Leukoencephalopathies, *Mark P. Gorman*
- 577. Neurotransmitter Disorders, *Erika F. Augustine and Annapurna Poduri*
- 578. Phakomatoses, *Mustafa Sahin*

### **SECTION 30: DISO**
