

Table of contents

Contributors

Preface

Acknowledgments

I. GENERAL OBSTETRIC SONOGRAPHY

1. Ultrasound Bioeffects and Safety: What the Practitioner Should Know
2. Normal Pelvic Anatomy as Depicted with Transvaginal Sonography
3. Transvaginal Sonography of Early Intrauterine Pregnancy
4. Transvaginal Sonography of Ectopic Pregnancy
5. Fetal Biometry
6. Prenatal Diagnosis of Congenital Heart Disease
7. Placenta, Cord and Membranes
8. Prenatal Diagnosis of Placenta Accreta
9. Fetal Growth Restriction
10. Doppler Velocimetry of the Uteroplacental Circulation
11. Doppler Interrogation of the Fetal Circulation
12. Color Doppler Sonography in Obstetrics
13. Sonography in Multiple Gestation

II: FETAL ANOMALIES AND DISORDERS

14. Fetal Anomalies: Overview
15. Prenatal Diagnosis of Cerebrospinal Anomalies
16. Fetal Neck and Chest Anomalies
17. Fetal Gastrointestinal Anomalies
18. The Fetal Genitourinary System
19. Fetal Skeletal Anomalies
20. Fetal Syndromes
21. Ultrasound Detection of Chromosomal Anomalies

III: RISK ASSESSMENT AND THERAPY

22. First Trimester Screening
23. Fetal Biophysical Profile Score: Theoretical Considerations and Practical Application
24. Chorionic Villus Sampling
25. Amniocentesis
26. Fetal Blood Sampling
27. Fetal Therapy: Maternal Fetal Surgery and Percutaneous Ultrasound Guided Fetal Therapy Techniques for Congenital Anomalies

IV: MATERNAL DISORDERS

28. Sonographic Examination of the Uterine Cervix
29. Sonography of Trophoblastic Diseases
30. Postpartum Ultrasound

V: GYNECOLOGIC SONOGRAPHY

31. Sonographic Evaluation of Pelvic Masses with Transabdominal and/or Transvaginal Sonography
32. Color Doppler Sonography of Pelvic Masses
33. Sonographic Evaluation of Uterine Disorders
34. Transvaginal Sonography of Endometrial Disorders
35. Sonographic Techniques for Early Detection of Ovarian and Endometrial Cancers
36. Acute Pelvic Pain: Transvaginal and Doppler Evaluation
37. Transvaginal Sonography in Gynecologic Infertility
38. Sonohysterography and Sonohysterosalpingography
39. Guided Procedures Using Transvaginal, Transperineal, and Transrectal Sonography
40. Pelvic Floor Ultrasound
41. Breast Sonography
42. Breast Ultrasound

VI: COMPLEMENTARY IMAGING: MODALITIES

43. Volume Sonography: Core Concepts for Clinical Practice
 44. Obstetrical Applications for 3D Ultrasonography
 45. Fetal Cardiac Evaluation Using 3D and 4D Ultrasonography
 46. Magnetic Resonance Imaging in Obstetrics
 47. Three-Dimensional Volumetric Sonography in Gynecology
 48. MRI of the Female Pelvis: Problem Solving Sonographic Uncertainties
- Index
