Foreword Alan S. Kaufman xiii

Preface xxiii

Part I The WAIS-IV: Development and Foundations

1 WAIS-IV: Advances in the Assessment of Intelligence Diane L. Coalson
Susan Engi Raiford Donald H. Saklofske Lawrence G. Weiss

Introduction 3

Wechsler's theory of intelligence: past and present 4

Structure and content of the WAIS-IV 7

Subtest descriptions 7

Score descriptions 11

WAIS-III to WAIS-IV: what's new? 12

Changes to structure and content 12

Other changes 18

Conclusion 19

References 20

2 Practical Issues in WAIS-IV Administration and Scoring Susan Engi Raiford
Diane L. Coalson Donald H. Saklofske Lawrence G. Weiss

Introduction 25

Administration and scoring considerations 26

Verbal Comprehension scale 26

Perceptual Reasoning scale 29

Working Memory scale 34

Processing Speed scale 38

Key prompts 42

Frequently asked administration and scoring questions 42

Conclusion 50

Appendix: What WAIS-III users should know about WAIS-IV 51

References 59

3 Theoretical, Empirical and Clinical Foundations of the WAIS-IV Index Scores
Lawrence G. Weiss Donald H. Saklofske Diane L. Coalson Susan Engi Raiford

Introduction 61

The WAIS-IV index scores 63

Verbal Comprehension Index 63

Perceptual Reasoning Index 65

Working Memory Index 68

Processing Speed Index (PSI) 72

Toward a dynamic model of intellectual abilities 75

Analyzing differences among index scores 79

The WAIS-IV Composite Scores 79

General Ability Index (GAI) 80

Cognitive Proficiency Index (CPI) 81

Issues in estimating overall ability 88

Summary and Comment 90

References 91

Part II The WAIS-IV: Clinical Use and Interpretation in Context

4 WAIS-IV Use in Societal Context Lawrence G. Weiss Hsinyi Chen Jossette G. Harris James A. Holdnack Donald H. Saklofske

Introduction 97

Bias issues in intellectual assessment 98

Demographic differences in various areas of life 102

Racial/ethnic group disparities in education 103

Racial/ethnic group disparities in mental health status 105

Racial/ethnic group disparities in physical health status 107

Racial/ethnic group disparities in income 109

Implications of demographic differences in various areas of life 110

The role of cognitive stimulation in intellectual development 112

Home environment influences on cognitive development 114

The role of the person in the development and maintenance of cognitive abilities 116

Patterns of IQ and Index score differences across racial/ethnic groups 118

SES mediators of FSIQ differences between culturally diverse groups 124

Are there individual mediators of intelligence that are universal? 130

Summary 135

References 136

5 The Flynn Effect and the Wechsler Scales Xiaobin Zhou Jacques Grégoire Jianjun Zhu

Introduction 141

Variability of the Flynn effect 142

What causes the Flynn effect? 143

Current research 146

Research method 147

Samples 147

Analysis 149

Results 152

FSIQ change by ability 152

FSIQ change by gender, education, and age 154

CPI change by ability and demographics	155
Score change in the DAS and the Bayley	158
Discussion	160
The Flynn effect and test construct	161
Is IQ change due to population change?	162
Conclusion	163
References	164
6 WAIS-IV Use in Neuropsychological Assessment	C. Munro Cullum Glenn J. Larrabee
Introduction	167
From WAIS-III to WAIS-IV	169
Changes to the WAIS-IV	170
Comparability of WAIS-IV and WAIS-III	172
Implications of changes in WAIS-IV for neuropsychological applications	173
Neuropsychological interpretation of the WAIS-IV	173
Clinical analysis of WAIS-IV scores	174
Test-retest reliability	176
Initial validity studies of WAIS-IV	177
Supplemental analyses of clinical scales	178
Intellectual giftedness and disability	178
Traumatic brain injury	180
Mild cognitive impairment and Alzheimer's disease	181
Major depression	183
Summary	185
Future research	185
References	186
7 The Wechsler Intelligence Scales in the Assessment of Psychopathology	Gerald Goldstein Donald H. Saklofske
Historical introduction	189
Factor analytic studies	192
Schizophrenia	193
Factor analytic studies	196
The schizophrenia spectrum	198
Autism	200
Factor analytic studies	202
Traumatic brain injury	204
Cluster and factor analytic studies	207
Summary	211
References	212

8 Do the WAIS-IV Tests Measure the Same Aspects of Cognitive Functioning in Adults Under and Over Age 65? Timothy A. Salthouse Donald H. Saklofske	
Introduction	217
Comparisons of level of performance	219
Reliability	226
Correlations among variables	226
Correlations with other variables	230
Discussion	237
References	234
9 Using WAIS-IV with WMS-IV James A. Holdnack Lisa W. Drozdick	
Introduction	237
Overview of WMS-IV	237
Brief history of the Wechsler Memory scale	237
WMS-IV structure	239
Interpretation	241
Combining WAIS-IV/WMS-IV scores	265
Methods for comparing scores	265
WAIS-IV versus WMS-IV comparisons	267
Case studies	269
Probable dementia of the Alzheimer's type - mild severity	269
Mild cognitive impairment	272
Traumatic brain injury	276
Left temporal epilepsy	279
References	283
