Table of Contents

**Head and neck oncology**
1: Complex midface reconstruction following tumour ablation, Hiba Aga, Laith Al-Qamachi, Matthew Idle, and Nicholas Grew
2: Challenging Concepts in Oral and Maxillofacial Surgery, Chris Fowell and Khaleeq-Ur Rehman
3: Management of osteoradionecrosis of the mandible, Anwer Abdullakutty, Jacob D’Souza, and Simon Rogers

**Cranio-maxillofacial trauma**
4: Frontal sinus fractures, Rabindra Singh and Lachlan Carter
5: Management of panfacial injuries: top down or bottom upa, Richard Burnham and Christopher Bridle
6: Adult orbital wall fracture repair, Richard Burnham and Christopher Bridle
7: Biomechanics of the mandible and current evidence for treatment of the fractured mandible, Douglas Hammond and Ahmed Messahel

**Military maxillofacial trauma**
8: High-energy ballistic injuries to the face, Johno Breeze, Sat Parmar, and Andrew Monaghan
9: Reconstructive challenges following blast injuries to the facial soft tissue and skeleton, Kevin McMillan and Timothy Martin
10: Low-energy explosive fragmentation injuries to the neck and face, Johno Breeze, Andrew Gibbons, and Ian Sharp

**Craniofacial surgery**
11: Cranial vault reconstruction following decompressive craniectomy, Luke Williams, Francine Ryba, and Robert Bentley
12: Distraction osteogenesis: a reconstructive option, Matthew Idle and Andrew Monaghan
13: Posterior calvarial osseodistraction for syndromic craniosynostoses, Neil Opie and Martin Evans

**Orthognathic surgery**
14: The anterior open bite, Barbara Gerber and Andrew Currie
15: Severe class II skeletal deformity, Lisa Greaney, Ken Sneddon, and Jeremy Collyer
16: The segmental maxillary osteotomy, Nabeela Ahmed and Dilip Srinivasan

**Temporomandibular joint disease**
17: TMJ replacement, Nabeela Ahmed and Andrew Sidebottom
18: Osteochondroma of the mandibular condyle/temporo-mandibular joint, Alan Attard and Jason Green
19: Management of the Wilkes Grade III TMJ, Grigore Mihalache and Ahmed Messahel

**Salivary gland**
20: Salivary calculi, Jahrad Haq and Mark. McGurk

**Dentoalveolar surgery**
21: Sagittal split osteotomy for the removal of a lower third molar, Matthew Idle and Stephen Dover
22: Implant restoration of the atrophic maxilla with concurrent mandibular rehabilitation, Elizabeth Gruber and Graham James
23: Keratocystic odontogenic tumours (KCOT) and orthokeratinised odontogenic cysts (OKOC), Alan Parbhoo and Mike Simpson

**Paediatric maxillofacial surgery**
24: Paediatric temporo-mandibular joint ankylosis, Kevin McMillan and Rhodri Williams
25: Cleft palate related velopharyngeal incompetence, Chris Sweet and Simon Van Eeden
26: Paediatric maxillofacial trauma, Suraj Thomas, Ujam Atheer, and Simon Holmes
