

## **Table of Contents:**

### **I. Cell Physiology**

**Howard C. Kutchai**

1. Cellular Membranes and Transmembrane Transport of Solutes and Water
2. Ionic Equilibrium and Resting Membrane Potentials
3. Generation and Conduction of Action Potentials
4. Synaptic Transmission
5. Membrane Receptors, Second Messengers, and Signal-Transduction Pathways

### **II. Nervous System**

**William D. Willis, Jr.**

6. Cellular Organization
7. General Sensory System
8. Special Senses
9. Motor System
10. Autonomic Nervous System and Its Control
11. Higher Functions of the Nervous System

## **II.**

### **III. Muscle**

**James Watras**

12. Skeletal Muscle
13. Cardiac Muscle
14. Smooth Muscle

### **IV. Cardiovascular System**

**Matthew N. Levy and Achilles Pappano**

15. Overview of the Circulation, Blood, and Hemostasis
16. Electrical Activity of the Heart
17. Natural Excitation of the Heart
18. Cardiac Pump
19. Regulation of the Heartbeat
20. Hemodynamics
21. Arterial System
22. Microcirculation and Lymphatics
23. Peripheral Circulation and Its Control
24. Control of Cardiac Output. Coupling of the Heart and Blood Vessels
25. Special Circulations
26. Interplay of Central and Peripheral Factors in Control of the Circulation

### **V. Respiratory System**

**Michelle M. Cloutier and Roger S. Thrall**

- 27. Overview of the Respiratory System
- 28. Mechanical Properties of the Lung and Chest Wall
- 29. Ventilation, Perfusion, and Their Relationship
- 30. Oxygen and Carbon Dioxide Transport
- 31. Control of Respiration
- 32. Nonrespiratory Functions of the Lung

**VI. Digestive System**

**Howard C. Kutchai**

- 33. Motility of the Gastrointestinal Tract
- 34. Gastrointestinal Secretions
- 35. Digestion and Absorption

**III.**

**VII. Renal System**

**Bruce M. Koeppen and Bruce A. Stanton**

- 36. Elements of Renal Function
- 37. Solute and Water Transport Along the Nephron. Tubular Function
- 38. Control of Body Fluid Osmolality and Extracellular Fluid Volume
- 39. Potassium, Calcium, and Phosphate Homeostasis
- 40. Role of the Kidneys in Acid-Base Balance

**VIII. Endocrine System**

**Saul M. Genuth**

- 41. General Principles of Endocrine Physiology
- 42. Whole-Body Metabolism
- 43. Hormones of the Pancreatic Islets
- 44. Endocrine Regulation of the Metabolism of Calcium and Phosphate
- 45. Hypothalamus and Pituitary Gland
- 46. Thyroid Gland
- 47. Adrenal Cortex
- 48. Adrenal Medulla
- 49. Overview of Reproductive Function
- 50. Male Reproduction
- 51. Female Reproduction

Answers to Case Studies
