

Table of Contents:

Part I: Diagnosis and Rationale

1. Rationale for Dental Implants
2. Generic Root Form Component Terminology
3. Diagnostic Imaging and Techniques
4. A Stress Theorem for Implant Dentistry
5. Prosthetic Options in Implant Dentistry
6. Treatment Planning: Force Factors Related to Patient Conditions
7. Bone Density: A Key Determinant for Treatment Planning
8. Treatment Plans Related to Key Implant Positions and Implant Number
9. Implant Body Size: A Biomechanical and Esthetic Rationale
10. Available Bone and Dental Implant Treatment Plans
11. Scientific Rationale for Implant Design

Part II: Treatment Planning

12. Pre-Implant Prosthodontics for the Partially Edentulous Patient: (1) Overall Evaluation, (2) Specific Criteria, and (3) Pretreatment Prosthesis
13. Diagnostic Casts and Surgical Templates
14. The Edentulous Mandible: An Organized Approach from Implant Supported Overdenture to Fixed Prosthesis
15. The Completely Edentulous Mandible: Treatment Plans for Fixed Restorations

16. Single Tooth Replacement: Treatment Options

17. Maxillary Arch Implant Considerations: Fixes and Overdenture Prosthesis

18. Treatment Planning for the Edentulous Posterior Maxilla

19. Classifications of Edentulous Arches

Part III: Fundamental Science

20. Medical Evaluation of the Dental Implant Patient

21. Pharmacologic Considerations / Oral Sedation

22. Applied Anatomy

23. Spread of Dental Infection – Head and Neck

24. Biomaterials

25. Biomechanics

26. Bone Physiology and Metabolism

27. Dental Implant Surfaces: A Review

28. Tissue Engineering Bone Response to Mechanical Loads

Part IV: Implant Surgery

29. Density of Bone: Effect on Surgical Approach and Healing

30. Posterior Single Tooth Replacement: Surgical Guidelines

31. Root Form Surgery in the Edentulous Anterior and Posterior Mandible: Implant Insertion

32. Stage II Surgery

33. Single Tooth Replacement: Surgical Considerations

34. Premaxilla Surgery

35. Immediate Load/Restoration in Implant Dentistry: Rationale and Treatment

Part V: Soft and Hard Tissue Rehabilitation

36. Keys to Bone Grafting Materials: Socket Grafting

37. Tooth Extraction, Socket Grafting, and Barrier Membrane Bone Regeneration

38. Sinus Lift and Sinus Graft Surgery

39. Intraoral Block Bone Grafts

40. Extraoral Block Bone Grafts

Part VI: Implant Maintenance

41. An Implant is Not a Tooth

42. Maintenance of Dental Implants
