

Table of Contents:

1. Anorexia Nervosa
2. Aplastic Anemia
3. Apnea
4. Appendicitis/Appendectomy
5. Asthma
6. Attention-Deficit/Hyperactivity Disorder
7. Autism Spectrum Disorders
8. Bulimia Nervosa
9. Burns
10. Cellulitis
11. Cerebral Palsy
12. Child Abuse and Neglect
13. Chronic Lung Disease of Infancy
14. Cleft Lip and Cleft Palate
15. Coarctation of the Aorta
16. Congestive Heart Failure
17. Cystic Fibrosis
18. Cytomegaloviral Infection
19. Developmental Dysplasia of the Hip
20. Diabetes Mellitus: Insulin Dependent
21. Diabetes Type 2: Non-Insulin Dependent
22. Disseminated Intravascular Coagulation
23. Down Syndrome
24. Drowning and Near-Drowning
25. Epiglottitis

26. Fetal Alcohol Syndrome
27. Foreign Body Aspiration
28. Fractures
29. Fragile X Syndrome
30. Gastroenteritis
31. Gastroesophageal Reflux
32. Glomerulonephritis
33. Hemolytic-Uremic Syndrome
34. Hemophilia
35. Hepatitis
36. Hirschsprung Disease
37. HIV Infection and AIDS
38. Hodgkin Disease
39. Hydrocephalus
40. Hyperbilirubinemia
41. Hypertension
42. Hypertrophic Pyloric Stenosis
43. Idiopathic Thrombocytopenic Purpura
44. Imperforate Anus
45. Inflammatory Bowel Disease
46. Intellectual Disability (formerly Mental Retardation)
47. Iron Deficiency Anemia
48. Juvenile Rheumatoid Arthritis
49. Kawasaki Disease
50. Learning Disabilities

51. Leukemia, Childhood
52. Meningitis
53. Muscular Dystrophy
54. Necrotizing Enterocolitis
55. Nephrotic Syndrome
56. Neuroblastoma
57. Newborn Screening for Genetic Disorders
58. Non-Hodgkin Lymphoma
59. Osteogenic Sarcoma
60. Osteomyelitis
61. Otitis Media, Acute
62. Overweight and Obesity, Childhood
63. Patent Ductus Arteriosus
64. Pneumonia
65. Poisoning
66. Renal Failure: Acute
67. Renal Failure: Chronic
68. Respiratory Distress Syndrome
69. Respiratory Tract Infections (RSV, Bronchiolitis, Pertussis and Croup)
70. Rheumatic Fever: Acute
71. Scoliosis
72. Seizure Disorders
73. Short Bowel Syndrome
74. Sickle Cell Disease
75. Spina Bifida
76. Substance Abuse Related Disorders

77. Sudden Infant Death Syndrome
78. Suicide
79. Systemic Bacterial Infections
80. Tetralogy of Fallot
81. Transplantation: Hematopoietic Stem Cell
82. Transplantation: Organ
83. Traumatic Brain Injury
84. Turner Syndrome
85. Urinary Tract Infections
86. Ventricular Septal Defect and Repair
87. Wilms Tumor

#### Part Two: Pediatric Diagnostic Procedures and Outpatient Surgeries

##### General Nursing Action

88. Cardiac Catheterization
89. Computed Tomography
90. Electrocardiography
91. Endoscopy
92. Hernia Repair
93. Intravenous Pyleogram (Excretory Urography)
94. Magnetic Resonance Imaging
95. Myringotomy with/without PE Tubes
96. Peritoneal Dialysis
97. Ph Probe Monitoring
98. Polysomnogram Sleep Studies
99. Tonsillectomy with/without Adenoidectomy (T & A)

## APPENDICES

A – Nursing Assessment

B – Mental Health Assessment

C - Growth and Development

D – Immunizations

E - Standardized Method for Taking B/P in Children

F - Laboratory Values

G - West Nomogram

H - Height/Weight Growth Curves

I - Psychosocial Interventions

J – Home Care

K – Community Services

L – Breast Feeding

M – Pediatric Palliative Care

N - Non-Accidental Trauma

O - Pain in Children

P – Health Care Quality and Outcome Guidelines
