

## Table of Contents

### 1. Basics

Patient History Data

OPQRST

SOAP

SAMPLE

Normal Lab Values

Spanish Communication

Abbreviations

Legal Next of Kin for Organ Donation

Culture & Development

### 2. Airway

Airway Control and Ventilation

Calculating Tank Life

Common Tank Sizes and Factors

Oxygen Concentrations to Liter Per Minute Flow

Rapid Sequence Intubation (RSI)

Pulse Oximetry Readings

End Tidal CO<sub>2</sub> Interpretation

Non-invasive Positive Pressure Ventilation

Initial Adult Ventilator Settings

Ventilator Alarms

Tracheal Tube & Suction Catheter Sizes

King Airway Sizes

LMA Sizes

Replacing a Tracheostomy Tube

Emergency Airway Techniques

Translaryngeal Cannula Ventilation

Surgical Cricothyrotomy

### 3. Trauma

Glasgow Coma Scale

Revised Trauma Score

Trauma Center Triage

Burn Categories

Burn Center Referral Criteria

Rule of Nines

Born Fluid Calculation

Nerve Root Correlations

Dermatome Map

Indications for Spinal Immobilization

#### **4. Cardiac**

Rhythm Analysis

Pulse Arrest Guidelines

Cardiac Arrest Rhythms

Immediate Care after Return of Spontaneous Circulation

Periarrest Rhythm

Acute Coronary Syndromes

Signs & Symptoms of Chronic Heart Failure

Management of Hypotension/Shock

Differentiating Heart Blocks

Precordial Lead Placement for 12 Lead ECG

Precordial Lead Placement for V4R, V8, V9

QTc Intervals

Quick VT 12-Lead Reference

VT/SVT Differentiation

Identifying Axis by QRS Complex

ST Segment Elevation and Location of Infarct

#### **5. Medical**

Poisoning and Overdose

Respiratory Emergencies

Diabetic Emergencies

Allergic Reactions

Stroke

Heat Emergencies

Hypothermia

Obstetrics

#### **6. Medications**

FDA Pregnancy Categories

Emergency Drug Index

Common Hypoglycemic Agents

Common Home Medications

Common Herbal Supplements

Commonly Abused Drugs

#### **7. IV Rate Calculations**

Dose Calculations

Height & Weight Conversion

Dopamine Drips

Drip Rates for Dopamine

Lidocaine Flow Rates  
Drip Rates for Epinephrine  
Correcting Common Problems with (VADs)  
Solution Compatibility Chart

## **8. Pediatrics**

Normal Vital Signs by Age Group  
Equipment for Pediatric Tracheal Intubation  
Pediatric Trauma Score  
The APGAR Scoring System  
Pediatric Resuscitation Algorithms  
Treating Children in Shock  
Treating Pediatric Respiratory Emergencies  
FACES Pain Scale

## **9. Rescue**

Arrival and Scene Size-Up  
START Triage  
SALT Triage  
Helicopter Landing Zones/Hand Signals  
Crime Scene Preservation

## **10. HAZMAT & WMD**

Approaching the Scene  
Personal Protective Equipment  
NFPA Placards  
HAZMAT International Classification System  
HAZMAT Warning Placards  
HAZMAT Zones  
Eight-Step Decontamination Procedure  
B-NICE  
CBREN  
CBRNE  
Category A Agents  
Cyanide Treatment  
Nerve Agent Poisoning  
Hospital Communication
