Table of Contents

Part I. MOLECULAR AND CELLULAR BASIS OF HEMATOLOGY

Chapter 1 Anatomy and Physiology of the Gene
Edward J. Benz, Jr., Andrew Wagner, Nancy Berliner

Chapter 2 Genomic Approaches to the Study of Hematologic Science
Todd Golub and Scott Armstrong

Chapter 3 Protein Synthesis, Processing, and Degradation
Garabet G. Toby and David L. Wiest

Chapter 4 Protein Architecture: Relationship of Form and Function
Alan C. Rigby and Barbara C. Furie

Chapter 5 Regulation of Cellular Response
Benjamin G. Neel and Christopher Carpenter

Chapter 6 Cell Adhesion
Rodger P. McEver

Chapter 7 Control of Cell Division
William M.F. Lee and Chi V. Dang

Chapter 8 Cell Death
David M. Hockenbery and Stanley J. Korsmeyer

Chapter 9 Pharmacogenomics and Hematological Diseases
Loe Kager and William E. Evans

Part II. IMMUNOLOGIC BASIS OF HEMATOLOGY

Chapter 10 Overview and Compartmentalization of the Immune System
Leland D. Powell and Linda G. Baum

Chapter 11 B-Cell Development
Kenneth Dorshkind and David J. Rawlings

Chapter 12 T-Cell and NK-Cell Immunity
Carol Clayberger and Alan M. Krensky

Chapter 13 Dendritic Cell Biology
Zbigniew M. Szczepiorkowski and Nina Bhardwhaj
Chapter 14 Regulation of Activation of B and I Lymphocytes
John C. Monroe and Lawrence Turka

Chapter 15 Leukocyte Trafficking
James J. Campbell, Steven Sloan, and Leslie E. Silberstein

Chapter 16 Tolerance and Autoimmunity
Mark J. Shlomchik

Part III. BIOLOGY OF STEM CELLS AND DISORDERS OF HEMATOPOIESIS

Chapter 17 Stem Cell Model of Hematopoiesis
Anskar YH Leung and Catherine M. Verfaillie

Chapter 18 Bone Marrow Microenvironment
Mo Dao and Catherine M. Verfaillie

Chapter 19 The Humoral Regulation of Hematopoiesis
Montaser Shaheen and Hal Broxmeyer

Chapter 20 Biology of Erythropoiesis, Erythroid Differentiation, and Maturation
Thalia Papayannopoulou, Alan D’Andrea, Janis Abkowitz, and Anna Rita Migliaccio

Chapter 21 Granulopoiesis and Monocytopenia
Arati Khanna-Gupta and Nancy Berliner

Chapter 22 Thrombopoiesis
Michael W. Long and Ronald Hoffman

Chapter 23 Thrombocytopenia Due to Decreased Platelet Production
J. B. Opalinska and Alan M. Gewirtz

Chapter 24 Inherited Forms of Bone Marrow Failure
Melvin H. Freedman

Chapter 25 Aplastic Anemia
Neal S. Young and Jaroslaw P. Maciejewski

Chapter 26 Paroxysmal Nocturnal Hemoglobinuria
Rob A. Brodsky

Chapter 27 Pure Red Cell Aplasia
Emmanuel N. Dessypris

Part IV. RED BLOOD CELLS
Chapter 28 Pathobiology of the Human Erythrocyte and Its Hemoglobins
*Martin H. Steinberg, Edward J. Benz, Jr., Henry Adewoye, and Ben Ebert*

Chapter 29 Approach to Anemia in the Adult and Child
*Peter Marks and Bertil Glader*

Chapter 30 Anemia of Chronic Diseases
*Lawrence B. Gardner and Edward J. Benz, Jr.*

Chapter 31 Pathology of Iron Metabolism
*Nancy C. Andrews*

Chapter 32 Disorders of Iron Metabolism: Iron Deficiency and Overload
*Gary M. Brittenham*

Chapter 33 Heme Biosynthesis and Its Disorders: Porphyrias and Sideroblastic Anemias
*James S. Wiley and Michael R. Moore*

Chapter 34 Megablastic Anemias
*Aœok C. Anthony*

Chapter 35 Thalassemia Syndromes
*Bernard G. Forget and Alan R. Cohen*

Chapter 36 Pathology of Sickle Cell Disease
*Robert P. Hebbel*

Chapter 37 Sickle Cell Disease
*Stephen H. Embury, Elliot Vichinsky, and Yogen Saunthararajah*

Chapter 38 Hemoglobin Variants Associated with Hemolytic Anemia, Altered Oxygen Affinity, and Methemoglobinemias
*Edward J. Benz, Jr.*

Chapter 39 Red Cell Enzymopathies
*Xylina T. Gregg and Josef T. Prchal*

Chapter 40 Red Cell Membrane Disorders
*Patrick G. Gallagher and Petr Jarolim*

Chapter 41 Autoimmune Hemolytic Anemias
*Melody J. Cunningham and Leslie E. Silberstein*

Chapter 42 Extrinsic Nonimmune Hemolytic Anemias
*Stanley L. Schrier and Erin Gourley Reid*
Part V. HOST DEFENSE AND ITS DISORDERS

Chapter 43 Complement Biology and Immunoglobulin
*Gregory Kline, Robert Barrington, and Michael C. Carroll*

Chapter 44 Normal Phagocyte Structure and Function
*Robert L. Baehner*

Chapter 45 Eosinophilia, Eosinophil-Associated Diseases, Chronic Eosinophil Leukemia, and the Hypereosinophilic Syndromes
*Steven J. Ackerman and Joseph H. Butterfield*

Chapter 46 Disorders of Phagocyte Function and Number
*Mary C. Dinauer and Thomas D. Coates*

Chapter 47 Disorders of Lymphocyte Function
*Aileen M. Cleary, Richard A. Insel, and David B. Lewis*

Chapter 48 Histiocytic Disorders
*Jeffrey M. Lipton and Robert J. Arceci*

Chapter 49 Lysosomal Storage Diseases: Perspective and Principles
*Gregory A. Grabowski and Nancy Leslie*

Chapter 50 Infectious Mononucleosis and Other Epstein-Barr Virus-Associated Diseases
*Stephen Gottschalk, Cliona M. Rooney, and Helen E. Heslop*

Chapter 51 The Spleen and Its Disorders
*Susan B. Shurin*

Chapter 52 Basophils, Mast Cells, and Systemic Mastocytosis
*Robert I. Parker and Dean D. Metcalfe*

Part VI. HEMATOLOGIC MALIGNANCIES

Chapter 53 Conventional Cytogenetics and Molecular Cytogenetics in Hematological Malignancies
*Gordon Dewald and Rhett P. Ketterling*

Chapter 54 The Molecular Basis of Neoplasia
*Carol Westbrook*

Chapter 55 Pharmacology and Molecular Mechanisms of Antineoplastic Agents for Hematologic Malignancies
*Stanton Gerson, Kapil N. Bhalla, Steven Grant, Richard Creeger, Nizar Bahlis*
Chapter 56 Radiation Therapy in the Treatment of Hematologic Malignancies
Andrea K. Ng and Peter M. Mauch

Chapter 57 Clinical Use of Hematopoietic Growth Factors
Jacob M. Rowe and Irit Avivi

Chapter 58 Radioimmunotherapy for B-Cell and Non-Hodgkin Lymphoma
Thomas E. Witzig

Chapter 59 Pathobiology of Acute Myeloid Leukemia
Brian Huntly and D. Gary Gilliland

Chapter 60 Clinical Manifestations of Acute Myeloid Leukemia
Kenneth B. Miller and Philip R. Daoust

Chapter 61 Therapy for Acute Myeloid Leukemia
Elihu H. Estey and Hagop Kantarijan

Chapter 62 Acute Myeloid Leukemia in Children
Gary V. Dahl and Howard J. Weinstein

Chapter 63 Pathobiology of Acute Lymphoblastic Leukemia
A. Thomas Look and Adolpho Ferrando

Chapter 64 Clinical Manifestations of Acute Lymphoblastic Leukemia
Stacey L. Berg, C. Philip Steuber, and David G. Poplack

Chapter 65 Treatment of Childhood Acute Lymphoblastic Leukemia
Lewis B. Silverman, Stephen E. Sallan, and Harvey J. Cohen

Chapter 66 Acute Lymphoblastic Leukemia in Adults
Dieter Hoelzer and Nicola Gokbudget

Chapter 67 Myelodysplastic Syndrome: Biology and Treatment
Richard Stone and Daniel DeAngelo

Chapter 68 Polycythemia Vera
Ronald Hoffman, Kelty R. Baker and Joe Prchal

Chapter 69 Chronic Myeloid Leukemia
Charles Sawyers and Neil P. Shah

Chapter 70 Myelofibrosis with Myeloid Metaplasia
Ronald Hoffman and Farhad Ravandi-Kashani
Chapter 71 Essential Thrombocythemia
Steven Fruchtman and Ronald Hoffman

Chapter 72 Myelodysplastic Syndromes and Myeloproliferative Syndromes in Children
David M. Loeb, Robert P. Castleberry, and Cindy L. Schwartz

Chapter 73 Pathobiology of Non-Hodgkin Lymphomas
Gianluca Gaidano and Riccardo Dalla-Favera

Chapter 74 Patho-Biology of Hodgkin’s Lymphoma
Stefano A. Pileri, Brunangelo Falini and Harold Stein

Chapter 75 Hodgkin’s Disease: Clinical Manifestations, Staging, and Therapy
Volker Diehl, Daniel Re, and Andreas Josting

Chapter 76 The Pathologic Basis for the Classification of Non-Hodgkin Lymphomas
Elaine Jaffe and Stefania Piltaluga

Chapter 77 Clinical Manifestations, Staging, and Treatment of Non-Hodgkin Lymphoma
John G. Gribben and Ann S. La Casce

Chapter 78 Malignant Lymphomas in Childhood
John T. Sandlund, Jr. Michael P. Link

Chapter 79 Chronic Lymphocytic Leukemia
Dilip V. Patel and Kanti R. Rai

Chapter 80 Hairy Cell Leukemia
Annaadriana Zakanja, LoAnne C. Petersen, and Martin S. Tallman

Chapter 81 Cutaneous T-Cell Lymphomas
Timothy M. Kuzel, Joan Guitart, and Steven T. Rosen

Chapter 82 AIDS-Related Lymphomas
David T. Scadden

Chapter 83 Multiple Myeloma and Other Plasma Cell Disorders
Guido Tricot

Chapter 84 Immunoglobulin Light Chain Amyloidosis (Primary Amyloidosis, AL)
Morrie A. Gertz, Martha Q. Lacy, Angela Dispenzien

Chapter 85 Atypical Immune Lymphoproliferations
Timothy C. Greiner and Thomas G. Gross
Chapter 86 Clinical Approaches to Infections in the Compromised Host  
Jo-Anne H. van Burik

Chapter 87 Nutritional Support of Patients with Hematologic Malignancies  
Polly Lenssen and Saundra N. Aker

Chapter 88 Psychosocial Aspects of Hematologic Disorders  
Ruth McCorkle, Siew Tzuh Tang, Jeannie Pasacreta

Chapter 89 Pain Management and Antiemetic Therapy in Hematologic Disorders  
Janet L. Abrahm, Lauren Dias, and Bridget Fowler

Chapter 90 Palliative Care  
Janet L. Abrahm and Barbara Sourkes

Chapter 91 Indwelling Access Devices  
Janet L. Abrahm and Linda M. Pellerin

Chapter 92 Late Complications of Hematologic Diseases and Their Therapies  
Wendy Landier and Smita Bhatia

Part VII. TRANSPLANTATION

Chapter 93 Hematopoietic Stem Cell Transplantation for Acquired Nonmalignant Diseases and Myelodysplastic Syndrome  
William Tse and H. Joachim Deeg

Chapter 94 Hematopoietic Cell Transplant for Immune Deficiencies and Genetic Diseases  
Stella M. Davies

Chapter 95 Results of Allogeneic Hematopoietic Cell Transplant for Hematologic Malignancies  
Andrea Bacigalupo

Chapter 96 Autologous Transplant for Hematologic malignancies and Solio Tumors  
Stephen J. Forman and Jeffery R. Schriber

Chapter 97 Unrelated Donor Stem Cell Transplantation Therapy  
Effie W. Petersdorf and Claudio Anasetti

Chapter 98 Umbilical Cord Blood Transplantation  
Juliet N. Barker and John E. Wagner

Chapter 99 Preparative Regimens for Hematopoietic Cell Transplantation  
Marcos de Lima and Sergio Giralt
Chapter 142 Transfusion of Plasma Derivatives: Fresh-Frozen Plasma, Cryoprecipitate, Albumin, and Immunoglobulins
*Cassandra D. Josephson and Christopher D. Hillyer*

Chapter 143 Preparation of Plasma-Derived and Recombinant Human Plasma Proteins
*William N. Drohan and David B. Clark*

Chapter 144 Transfusion Therapy for Coagulation factor Deficiencies
*Catherine S. Manno and Peter Larson*

Chapter 145 Hemapheresis and Cellular Therapy
*Ellen F. Lazarus and Harvey G. Klein*

Chapter 146 Practical Aspects of Stem Cell Collection
*Scott D. Rowley, Stuart L. Goldberg, and Jack Hsu*

Chapter 147 Transfusion Reactions
*Edward L. Snyder and YanYun Wu*

Chapter 148 Transfusion-Transmitted Diseases
*Eberhard W. Fiebig, Michael P. Busch and Jay E. Menitove*

Chapter 149 Transfusion Medicine in Hematopoietic Stem Cell and Solid Organ Transplantation
*Richard M. Kaufman, Jerome Ritz and Walter H. Dzik*

Chapter 150 Red Blood Cell Substitutes
*Robert M. Winslow*

Part X. CONSULTATIVE HEMATOLOGY

Chapter 151 Hematologic Manifestations of Systemic Disease: Liver and Renal Disease
*Rachel Rosovsky and Peter W. Marks*

Chapter 152 Hematologic Manifestations of Systemic Disease: Infection, Chronic Inflammation, and Cancer
*Peter W. Marks and David S. Rosenthal*

Chapter 153 Hematologic Manifestations of AIDS
*David H. Henry and James A. Hoxie*

Chapter 154 Hematologic Problems in the Surgical Patient: Bleeding and Thrombosis
*Mark T. Reding and Nigel S. Key*
Chapter 155 Hematologic Aspects of Pregnancy
Edward J. Benz, Jr.

Chapter 156 Hematologic Manifestations of Childhood Illness
A. Kim Ritchey and Frank G. Keller

Part XI. SPECIAL TESTS AND PROCEDURES

Chapter 157 Bone Marrow Examination
Daniel H. Ryan and Harvey J. Cohen

Chapter 158 Automated Analysis of Blood Cells
Raymond E. Felgar and Daniel H. Ryan

Chapter 159 Laboratory Detection of Hemoglobinopathies and Thalassemias
Martin H. Steinberg and David Chui

Chapter 160 Antenatal Diagnosis of Hematologic Disorders
Kim Kramer and Harvey J. Cohen

Chapter 161 Use of Molecular Techniques in the Analysis of Hematologic Diseases
Michele Paessler and Adam Bagg

Chapter 162 Molecular Imaging in Hematology
Francis G. Blankenberg

Appendix Normal Blood Values: Selected Reference Values for Neonatal, Pediatric, and Adult Populations
Sharon M. Geaghan
