Chapter 1 Theoretical Background to Structural Reflex Zone Therapy 1

Introduction to reflexology 1

Mechanism of action of reflexology 3

Types of reflexology 7

Reflex zone therapy 10

Introducing structural reflex zone therapy 12

The evidence base for reflexology 20

Conclusion 22

Chapter 2 Clinical Practice of Structural Reflex Zone Therapy in Maternity Care 23

Aims of structural reflex zone therapy in pregnancy and childbirth 23

Professional issues for midwives and reflexologists 25

Preparation for treating pregnant and childbearing women with structural reflex zone therapy 31

Contraindications and precautions 37

Reflex zone therapy treatment sequence 46

Reactions to treatment 54

Chapter 3 Reflex Zones used in Structural Reflex Zone Therapy for Maternity Care 58

Relaxation points 60

Pituitary gland 62

Reproductive organs 64

Diagnostic potential of the reflex zones for the reproductive organs 68

Head and neck 71

Musculoskeletal system 72

Lymphatic system 76

Renal tract 76

Gastrointestinal tract 78

Endocrine system 79

Hepato-biliary system 80

Cardio-respiratory system 81

Chapter 4 Structural Reflex Zone Therapy for Pregnancy 83

Introduction 84

Infertility and preconception care	84
Stress, anxiety and panic attacks; tiredness and insomnia	88
Nausea and vomiting; hypersalivation	91
Headaches and migraine; neck pain	93
Heartburn and indigestion	99
Constipation	100
Haemorrhoids	101
Backache, sacroca and symphysis pubis discomfort	104
Oedema and carpal tunnel syndrome	107
Sinus congestion	110
Breech presentation	110
Chapter 5 Structural Reflex Zone Therapy for Labour	113
Introduction	113
Pain relief in labour	114
Estimation of the onset of labour with reflex zone therapy	116
Induction and acceleration of labour	117
Retained placenta	123
Chapter 6 Structural Reflex Zone Therapy for the Puerperium	126
Introduction	126
Psycho-emotional recovery from birth	128
Musculoskeletal system	131
Uterus and retained products of conception	134
Pelvic floor	135
Kidneys, bladder and micturition	138
Gastrointestinal tract and defaecation	142
Lactation and breastfeeding	143
References, further reading and sources of information	147
Glossary of terms	155
Appendices	158
1 Suggested treatment sequence for reflex zone therapy relaxation	158
2 Manipulative techniques for structural reflex zone therapy	159
3 Structural reflex zone therapy for pregnancy	161
4 Structural reflex zone therapy for labour	163
5 Structural reflex zone therapy for the puerperium	165
