

Table of Contents:

General Information

Part I

Section A

Concepts in Medical Toxicology

1. The History of Toxicology
2. The Emergency Management of Poisoning
 - A. A General Approach, B. Decontamination, C. Principles of Elimination Enhancement, D. Hemodialysis and Hemoperfusion
3. Laboratory Diagnoses and Drug Screening
4. Principles of Pharmacology
5. Drug Interactions
6. Acid-Base, Fluid, and Electrolyte in Adults
7. Forensic Toxicology
 - A. General Principles, B. Clinical Issues

Section B

Effects of Poisoning By Organ System

8. Cardiovascular Toxicology
9. Pulmonary Toxicology
10. Clinical Neurotoxicity
11. Hepatic Toxicology
12. Renal Toxicology
 - A. Acute Renal Toxicity
 - B. Chronic Renal Toxicity
13. Gastrointestinal Toxicology
14. Hematologic Consequences of Poisoning
15. Ocular Toxicology
16. Endocrine Toxicology

Section C

Poisoning in Special Populations

17. Management Principles of Overdose in Pregnancy
18. Toxicologic Issues in the Neonate
19. Toxicologic Issues in the Geriatric Patient
20. Childhood Poisonings
 - A. Prevention of Childhood Poisonings, B. Poisoning in Children with Unique Metabolism

Part II

Section A

Biologic Toxins

21. Venomous Snakes
 - A. North America Crotalinae Envenomation, B. Elapidae: North American and Selected Non-native Species
22. Venomous Arthropods
 - A. Spiders, B. Scorpions and Stinging Insects
23. Mushrooms
24. Poisonous Plants
25. Toxic Marine Life
26. Botulism and Other Food-borne Toxins

Section B

Central Nervous System

27. Tricyclic and Other Cyclic Antidepressants
28. Serotonin Reuptake Inhibitors and Other Atypical Antidepressants
29. Monoamine Oxidase Inhibitors and Serotonin Syndrome
30. Lithium
31. Ethanol
32. Methanol, Ethylene Glycol, and Other Toxic Alcohols
33. Opioids
34. Sedative Hypnotics
35. Benzodiazepines
36. Barbiturates
37. Muscle Relaxants
38. Antipsychotic Agents
39. Anticholinergics and Antihistamines
40. Anticonvulsants
41. Marijuana
42. Cocaine
43. Dissociative Agents: Phencyclidine, Ketamine, and Dextromethorphan
44. Amphetamines and Derivatives
45. Hallucinogens
46. GHB and Related Compounds

Section C

Analgesics

47. Acetaminophen
48. Salicylates
49. The Triptans
50. Colchicine
51. Nonsteroidal Anti-inflammatory Drugs

Section D

Antimicrobial, Chemotherapeutic, and Immunosuppressive Agents

52. Antibacterial and Antifungal Agents
53. Antiviral Agents
54. Anthelmintics
55. Isoniazid
56. Chemotherapeutic Agents and Thalidomide
 - A. Chemotherapeutic Agents
 - B. Thalidomide
57. Transplant Agents and Other Immunosuppressives

Section E

Cardiovascular, Hematologic, and Endocrine Agents

58. Digitalis
59. Calcium Channel Antagonists
60. α -Adrenergic Blocker Toxicity
61. Nitroprusside, ACE Inhibitors, and Other Cardiovascular Agents

- 62. Clonidine and Related Imidazoline Derivatives
- 63. Class IA Antiarrhythmics: Quinidine, Procainamide, and Disopyramide
- 64. Diabetic Control Agents
- 65. Theophylline and Caffeine
- 66. Anticoagulants
- 67. Thyroid Agent Toxicity

Section F

Cams, Nutritionals, and Performance Enhancers

Herbal Medicine and Miscellaneous Agents

- 68. Herbal, Traditional, and Alternative Medicine
- 69. The Vitamins
- 70. Performance Enhancers

Section G

Toxic Metals and Minerals

- 71. Mercury: Heavy Metals and Inorganic Agents
- 72. Iron
- 73. Lead
- 74. Arsenic and Arsine
- 75. Other Heavy Metals

Section H

Pesticides

- 76. That Organophosphates and Carbamates
- 77. Pyrethrins, Repellants and Other Pesticides
- 78. Herbicides
- 79. Rodenticides
- 80. Fumigants
- 81. Organochlorine Insecticides

Section I

Environmental, Industrial and Household Product

Toxicology

- 82. Occupational Toxicology
- 83. Environmental Toxicology
- 84. Pediatric Environmental Health for Toxicologists
- 85. Common Perceived but Unproven Toxic Syndromes
- 86. Smoke Inhalation
- 87. Carbon Monoxide Poisoning
- 88. Cyanide and Related Compounds – Sodium Azide
- 89. Isocyanates and Related Compounds
- 90. Hydrofluoric Acid and Other Fluorides
- 91. Hydrogen Sulfide
- 92. Petroleum Distillates and Plant Hydrocarbons
- 93. Chlorinated Hydrocarbons
- 94. Benzene and Related Aromatic Hydrocarbons
- 95. Freon and Other Inhalants
- 96. Halogens (Bromine, Iodine, and Chlorine Compounds)
- 97. Ammonia and Nitrogen Oxides
- 98. Corrosives
- 99. Baby Powder, Borates, and Camphor

- 100. Cosmetics and Toilet Articles
- 101. Essential Oils
- 102. Soaps, Detergents and Bleaches

Section J

Disasters and Terrorism

- 103. Principles of Emergency Management and Management of Hazardous Materials Incidents
- 104. Medical Management of Radiation Incidents
- 105. Chemical Weapons

Appendix : Chemical Conversions of Toxicologic Laboratory Values
