

## Table of Contents

1	History of pediatric cardiac anesthesia	1
2	Pediatric heart disease in the developing world	7
3	Intrauterine development of the cardiovascular system	13
4	Extrauterine development of the cardiovascular system	28
5	Pediatric anesthesia pharmacology	50
6	Preoperative evaluation and preparation of the pediatric patient with cardiac disease	95
7	Cardiac catheterization and other radiographic examinations	112
8	Pediatric electrocardiography and cardiac electrophysiology	137
9	Pediatric echocardiography	151
10	Anesthetic and perioperative management	174
11	Monitoring of the pediatric cardiac patient	190
12	Physiology and techniques of extracorporeal circulation in the pediatric patient	228
13	Profound hypothermia and circulatory arrest	253
14	Vital organ preservation during surgery for congenital heart disease	266
15	Management of postbypass myocardial dysfunction	291
16	Hemostasis, coagulation, and transfusion in the pediatric cardiac patient	304
17	Management of postbypass pulmonary hypertension and respiratory dysfunction	317
18	Septal and endocardial cushion defects	329
19	Tetralogy of Fallot	344
20	Transposition of the great vessels	357
21	Anomalies of the aortic arch and valve	381
22	Anomalies of the pulmonary valve and right ventricular outflow tract	426
23	Tricuspid atresia	435
24	Hypoplastic left heart syndrome	445
25	Double outlet right ventricle	467
26	Truncus arteriosus	472
27	Anomalies of systemic and pulmonary venous return	480
28	Abnormalities of the atrioventricular valves	501
29	Coronary artery anomalies	523
30	Cardiomyopathies	530
31	Pulmonary hypertension, persistent fetal circulation, and Eisenmenger syndrome	536
32	Pediatric cardiac and lung transplantation	551
33	Secondary vascular anomalies and cardiac tumors	582
34	Anesthesia for noncardiac surgery in children and adults with congenital heart disease	601

35	Postoperative care : general principles	633
36	Postoperative cardiovascular dysfunction : pharmacologic support	654
37	Postoperative respiratory function and its management	682
38	Renal, gastrointestinal, hepatic, and neurologic dysfunction	705
39	Postoperative pain management in the pediatric cardiac patient	723
40	Anesthesia for cardiac procedures in the pediatric intensive care unit	735
41	Quality in pediatric cardiac anesthesia	742
42	Teaching pediatric cardiac anesthesiology	755
