Preface vi

1 Foundations 1

The Spectrum of Vertical 1

Growth Foundations 24

Diagnosis and Treatment Planning Principles 31

2 Dental Deep Bites 66

Introduction 66

Case Andrew: Class II division 2 adolescent 91

Case Emma: Class II division 2 impacted canines missing premolar adolescent 125

3 Skeletal Deep Bites 143

Introduction 143

Case Adam: Class II division 1 adolescent 169

Case Valerie: Class II division 1 dental asymmetry adolescent 182

Case Shawn: Class III nearly complete lingual cross bite late adolescent 202

Case Megan: Class II division 2 left posterior cross bite maxillary / mandibular cants adult 217

Case Connie: Class II division 2 severe anterior attrition adult 240

4 Dental Anterior Open Bites 263

Introduction 263

Case Sasha: Class II division 1 subdivision right ADD with reduction and crepitus small maxillary

lateral incisors adult 276

Case Derrick: Class III anterior and posterior cross bite adolescent 283

Case Steven: Class II division 1 minimal posterior overjet adolescent 297

5 Skeletal Anterior Open Bites 309

Introduction 309

Case Emma: Class II division 1 anterior cross bite moderate to severe anterior crowding child 336

Case Rachael: Class II division 1 enlarged adenoids child 354

Case Kaylee: Class III left posterior cross bite late adolescent 371

Case Greg: Class II division 1 bilateral posterior cross bite multiple missing teeth adult 385

Case Ashley: Class II division 1 subdivision left anterior cross bite adult 409

Case Alyson: Class II division 1 right posterior cross bite mild adenoidal hypertrophy adult 429

6 Posterior Open Bites 457

Introduction 457

Case Mark: Class I child 472

Case George: Class II division 2 subdivision right sleep apnea adult 484

Case Kreslyn: Class III right Class II left bilateral posterior cross bite adult 495
