Preface

Acknowledgement

Introduction
O. Jensen

Part I Introduction

1 Introduction
Len Tolstunov

2 Applied surgical anatomy of the jaws
Mohamed Sharawy

3 Bone Development and Histiogenesis of the Jaws
Mohammed E. Elsalanty

4 Prosthetic Comprehensive Oral Evaluation in Implant Dentistry: A Team Approach
Gary A. Morris

5 Orthodontic implant site development
Ugo Macca, Agatino Davide Mirabella, and Francesco Amato

6 Radiographic evaluation of the alveolar ridge in implant dentistry. CBCT technology
Shikha Rathi and David Hatcher

7 Classification of the Alveolar Ridge Defects in Implant Dentistry
Patrick Palacci

8 Alveolar Ridge Augmentation: An Algorithmic Approach
Alan S Herford, Katina Nguyen, and Ayleen Rojhani

Part II Guided Tissue Regeneration (GTR) with Particulate Bone Grafting in Implant Dentistry

9 The Biology of Particulate Bone Grafting in Implant Dentistry
Richard T. Kao, Mark C. Fagan, and Gregory J. Conte

10 Implant site preparation with particulate grafts
Gregory J. Conte, Mark C. Fagan, and Richard T. Kao

11 Horizontal Alveolar Ridge Augmentation using Titanium Mesh and Particulate Bone Graft for the Treatment of Alveolar Ridge Defects
John F. "Eric" Hamrick

12 Management of Complications of Guided Bone Regeneration
Mark C. Fagan, Gregory J. Conte, and Richard T. Kao,

Part III Block Bone Grafting for Horizontal Ridge Augmentation in Implant Dentistry

13 Autogenous Intraoral Block Bone Grafting for Horizontal Augmentation of the Alveolar Ridge in Implant Dentistry
Devorah Schwartz-Arad

14 Autogenous block bone grafting from extraoral (distant) sites for alveolar ridge augmentation: techniques, surgical considerations
Erica L. Shook and A. Thomas Indresano

15 Alternative Intraoral Block Bone Grafting Techniques for Horizontal Alveolar Ridge Augmentation in Implant Dentistry

A: Localized Alveolar Ridge Augmentation with Block Allograft
Joseph A. Leonetti and J. Daulton Keith, Jr

B: Maxillary Tuberosity Block Bone Graft
Len Tolstunov

C: Ring Technique
Daniel I. Ostrowicz

Part IV Ridge-Split Procedure for Horizontal Augmentation of the Alveolar Ridge

16 Diagnosis and Treatment Planning
Len Tolstunov

17 Surgical Principles of the Ridge-Split Procedure
Len Tolstunov

18 Mandibular Two-stage Alveolar Ridge-Split Procedure
Len Tolstunov

19 Maxillary Single-stage Alveolar Ridge-Split Procedure

Len Tolstunov

20 Advanced Ridge-Split Techniques for an Experienced Practitioner

Len Tolstunov

21 Comparison of Ridge-Split and Block Grafting Techniques for Width-Deficient Alveolar Ridges

Len Tolstunov

22 Alveolar crest spreading system for horizontal bone augmentation in implant dentistry

Bruno Ella

23 Management of Complications of Ridge-Split Procedure and Conclusion (10 Commandments of Success with Ridge-Split Procedure)

Len Tolstunov

Part V Alveolar Distraction Osteogenesis for Horizontal Ridge Augmentation in Implant Dentistry

24 Horizontal Alveolar Distraction Osteogenesis: Diagnosis and Treatment Planning

Sami A. Nizam II and Shahid Aziz

25 Horizontal Alveolar Distraction and Periosteal Expansion Osteogenesis

Kensuke Yamauchi and Tetsu Takahashi

26 Cortical Bone Repositioning Technique

Kensuke Yamauchi and Tetsu Takahashi

27 Horizontal Alveolar Distraction Osteogenesis: Complications and Their Management *Andrew Yampolsky and Shahid Aziz*

Part VI Soft Tissue Grafting for Implant Site Development

28 Soft Tissue Grafting for Implant Site Development: Diagnosis and Treatment Planning, Esthetic Evaluation

Edgard El Chaar and Sarah Oshman

29 Techniques of Soft Tissue Grafting in Implant Dentistry

Edgard El Chaar and Sarah Oshman

30 Management of Complications of Soft Tissue Grafting in Implant Dentistry

Edgard El Chaar and Sarah Oshman

Part VII Tissue Engineering in Implant Dentistry

31 Alveolar bone augmentation via in-situ tissue engineering
Robert E. Marx

32 Growth Factors and Alveolar Bone Augmentation
R. Gilbert Triplett, Jay P. Malmquist and Sterling R. Schow

33 Platelet Rich Fibrin: Natural and Biological Blood Concentrate
Joseph Choukroun and Alexandre-Amir Aalam

34 Practical implications of stem cell technology: functional tooth restoration using bioengineered organ regeneration and bio-hybrid artificial organ replacement
Masamitsu Oshima and Takashi Tsuji

Index
