

Table of contents

1 Introduction, 1

- 1.1 The nature of fungi, 1
- 1.2 Classification and nomenclature of fungi and fungal diseases, 3
- 1.3 Fungi as human pathogens, 5
- 1.4 The changing pattern of fungal infection, 7
- 1.5 New directions in diagnosis, 9
- 1.6 New directions in treatment and prevention, 10

2 Laboratory diagnosis of fungal infection, 12

- 2.1 Introduction, 12
- 2.2 Collection of specimens, 13
- 2.3 Specimens for serological tests, 18
- 2.4 Specimens for antifungal drug level determinations, 18
- 2.5 Transport of specimens, 18
- 2.6 Interpretation of laboratory test results, 18
- 2.7 Molecular diagnosis of fungal infection, 28

3 Antifungal drugs, 32

- 3.1 Introduction, 32
- 3.2 Allylamines, 32
- 3.4 Other allylamine compounds for topical administration, 35
- 3.5 Azoles, 35
- 3.6 Fluconazole, 40
- 3.7 Itraconazole, 44
- 3.8 Ketoconazole, 48
- 3.9 Posaconazole, 50

- 3.10 Voriconazole, 53
- 3.11 Other imidazole compounds for topical administration, 57
- 3.12 Echinocandins, 59
- 3.13 Anidulafungin, 60
- 3.14 Caspofungin, 61
- 3.15 Micafungin, 63
- 3.16 Polyenes, 65
- 3.17 Amphotericin B, 66
- 3.18 Other polyene compounds for topical administration, 76
- 3.19 Flucytosine, 76
- 3.20 Griseofulvin, 79
- 3.21 Other miscellaneous compounds for topical administration, 81
- 3.22 Prophylactic treatment for prevention of fungal infection, 82
- 3.23 Empirical treatment of suspected fungal infection in the neutropenic patient, 84
- 3.24 Pre-emptive antifungal treatment, 85
- 3.25 Combination antifungal treatment of invasive fungal infections, 85
- 3.26 Laboratory monitoring, 86

4 Dermatophytosis, 91

- 4.1 Introduction, 91
- 4.2 The causal organisms and their habitat, 92
- 4.3 Epidemiology, 93
- 4.4 Laboratory diagnosis of dermatophytosis, 94
- 4.5 Tinea capitis, 95
- 4.6 Tinea corporis, 102

4.7 Tinea cruris, 105

4.8 Tinea pedis, 107

4.9 Tinea manuum, 111

4.10 Tinea unguium, 113

5 Superficial candidosis, 121

5.1 Definition, 121

5.2 Geographical distribution, 121

5.3 The causal organisms and their habitat, 121

5.4 Epidemiology, 122

5.5 Clinical manifestations, 124

5.6 Essential investigations and their interpretation, 130

5.7 Management, 130

5.8 Prevention, 136

6 Other cutaneous fungal infections, 138

6.1 Pityriasis versicolor, 138

6.2 Other *Malassezia* infections, 142

6.3 Piedra, 143

6.4 White piedra, 144

6.5 Black piedra, 145

6.6 Tinea nigra, 147

6.7 *Neoscytalidium* infection, 148

6.8 *Alternaria* infection, 149

7 Mould infections of nails, 151

7.1 Definition, 151

7.2 Geographical distribution, 151

- 7.3 The causal organisms and their habitat, 151
- 7.4 Epidemiology, 152
- 7.5 Clinical manifestations, 152
- 7.6 Differential diagnosis, 153
- 7.7 Essential investigations and their interpretation, 153
- 7.8 Management, 154
- 7.9 Prevention, 155

8 Keratomycosis, 156

- 8.1 Definition, 156
- 8.2 Geographical distribution, 156
- 8.3 The causal organisms and their habitat, 156
- 8.4 Epidemiology, 157
- 8.5 Clinical manifestations, 158
- 8.6 Essential investigations and their interpretation, 159
- 8.7 Management, 160

9 Otomycosis, 162

- 9.1 Definition, 162
- 9.2 Geographical distribution, 162
- 9.3 The causal organisms and their habitat, 162
- 9.4 Epidemiology, 162
- 9.5 Clinical manifestations, 163
- 9.6 Differential diagnosis, 164
- 9.7 Essential investigations and their interpretation, 164
- 9.8 Management, 164

10 Aspergillosis, 166

- 10.1 Definition, 166
- 10.2 Geographical distribution, 166
- 10.3 The causal organisms and their habitat, 166
- 10.4 Epidemiology, 167
- 10.5 Clinical manifestations, 170
- 10.6 Essential investigations and their interpretation, 182
- 10.7 Management, 186
- 10.8 Empirical treatment of suspected invasive aspergillosis, 194
- 10.9 Prevention, 195

11 Invasive candidosis, 201

- 11.1 Definition, 201
- 11.2 Geographical distribution, 201
- 11.3 The causal organisms and their habitat, 201
- 11.4 Epidemiology, 202
- 11.5 Clinical manifestations, 208
- 11.6 Candidosis in special hosts, 217
- 11.7 Essential investigations and their interpretation, 217
- 11.8 Management, 221
- 11.9 Empirical treatment of suspected invasive candidosis, 232
- 11.10 Prevention, 232

12 Cryptococcosis, 236

- 12.1 Definition, 236
- 12.2 Geographical distribution, 236
- 12.3 The causal organisms and their habitat, 236
- 12.4 Epidemiology, 238

12.5 Clinical manifestations, 240

12.6 Essential investigations and their interpretation, 244

12.7 Management, 246

12.8 Prevention, 251

13 Mucormycosis, 253

13.1 Definition, 253

13.2 Geographical distribution, 253

13.3 The causal organisms and their habitat, 253

13.4 Epidemiology, 254

13.5 Clinical manifestations, 256

13.6 Differential diagnosis, 259

13.7 Essential investigations and their interpretation, 259

13.8 Management, 260

13.9 Prevention, 262

14 Pneumocystosis, 264

14.1 Definition, 264

14.2 Geographical distribution, 264

14.3 The causal organisms and their habitat, 264

14.4 Epidemiology, 265

14.5 Clinical manifestations, 268

14.6 Differential diagnosis, 269

14.7 Essential investigations and their interpretation, 270

14.8 Management, 271

14.9 Prevention, 274

15 Blastomycosis, 277

- 15.1 Definition, 277
- 15.2 Geographical distribution, 277
- 15.3 The causal organism and its habitat, 277
- 15.4 Epidemiology, 278
- 15.5 Clinical manifestations, 279
- 15.6 Differential diagnosis, 282
- 15.7 Essential investigations and their interpretation, 282
- 15.8 Management, 283
- 15.9 Prevention, 286

16 Coccidioidomycosis, 288

- 16.1 Definition, 288
- 16.2 Geographical distribution, 288
- 16.3 The causal organisms and their habitat, 288
- 16.4 Epidemiology, 289
- 16.5 Clinical manifestations, 291
- 16.6 Differential diagnosis, 294
- 16.7 Essential investigations and their interpretation, 294
- 16.8 Management, 297
- 16.9 Prevention, 301

17 Histoplasmosis, 304

- 17.1 Definition, 304
- 17.2 Geographical distribution, 304
- 17.3 The causal organism and its habitat, 305
- 17.4 Epidemiology, 305
- 17.5 Clinical manifestations, 307

- 17.6 Differential diagnosis, 312
- 17.7 Essential investigations and their interpretation, 313
- 17.8 Management, 316
- 17.9 Prevention, 320

18 Paracoccidioidomycosis, 322

- 18.1 Definition, 322
- 18.2 Geographical distribution, 322
- 18.3 The causal organism and its habitat, 322
- 18.4 Epidemiology, 323
- 18.5 Clinical manifestations, 324
- 18.6 Differential diagnosis, 327
- 18.7 Essential investigations and their interpretation, 327
- 18.8 Management, 329
- 18.9 Prevention, 331

19 Chromoblastomycosis, 332

- 19.1 Definition, 332
- 19.2 Geographical distribution, 332
- 19.3 The causal organisms and their habitat, 332
- 19.4 Epidemiology, 333
- 19.5 Clinical manifestations, 333
- 19.6 Differential diagnosis, 334
- 19.7 Essential investigations and their interpretation, 334
- 19.8 Management, 335

20 Entomophthoromycosis, 338

- 20.1 Introduction, 338

20.2 Basidiobolomycosis, 338

20.3 Conidiobolomycosis, 341

21 Mycetoma, 344

21.1 Definition, 344

21.2 Geographical distribution, 344

21.3 The causal organisms and their habitat, 344

21.4 Epidemiology, 346

21.5 Clinical manifestations, 346

21.6 Differential diagnosis, 347

21.7 Essential investigations and their interpretation, 348

21.8 Management, 349

22 Sporotrichosis, 352

22.1 Definition, 352

22.2 Geographical distribution, 352

22.3 The causal organism and its habitat, 352

22.4 Epidemiology, 353

22.5 Clinical manifestations, 354

22.6 Differential diagnosis, 356

22.7 Essential investigations and their interpretation, 357

22.8 Management, 358

22.9 Prevention, 360

23 Hyalohyphomycosis, 362

23.1 Introduction, 362

23.2 *Fusarium* infection, 362

23.3 *Scedosporium* infection, 369

23.4 Other agents of hyalohyphomycosis, 373

24 *Penicillium marneffe* infection, 376

24.1 Introduction, 376

24.2 Geographical distribution, 376

24.3 The causal organism and its habitat, 376

24.4 Epidemiology, 377

24.5 Clinical manifestations, 378

24.6 Differential diagnosis, 378

24.7 Essential investigations and their interpretation, 379

24.8 Management, 380

24.9 Prevention, 381

25 Phaeohyphomycosis, 383

25.1 Introduction, 383

25.2 Geographical distribution, 384

25.3 The causal organisms and their habitat, 384

25.4 Epidemiology, 385

25.5 Clinical manifestations, 387

25.6 Differential diagnosis, 390

25.7 Essential investigations and their interpretation, 391

25.8 Management, 392

26 Other invasive yeast infections, 396

26.1 Introduction, 396

26.2 Systemic *Malassezia* infection, 396

26.3 Trichosporonosis, 399

26.4 Other yeast infections, 402

27 Unusual fungal and pseudofungal infections, 405

27.1 Introduction, 405

27.2 Adiaspiromycosis, 405

27.3 Lacaziosis, 408

27.4 Pythiosis, 410

27.5 Rhinosporidiosis, 414
