

Table of Contents:

SECTION I: Immediate Approach to the Critical Patient

- 1 Resuscitation/advanced life support, Robert Luten
- 2 Airway emergencies: respiratory distress and failure, Marianne Gausche-Hill
- 3 Rapid sequence intubation, Steve Rothrock
- 4 Intubation, rescue devices, and airway adjuncts, Aaron Donoghue, Ron Walls
- 5 Critical monitoring techniques, Tom Abramo
- 6 Newborn resuscitation, Richard Cantor
- 7 The critically ill neonate, Maureen McCollough
- 8 Circulatory emergencies: shock, Steve Rothrock, Christine Cho
- 9 Cerebral resuscitation, Norm Paradis
- 10 General approach to poisoning, Erica Liebelt
- 11 Altered mental status/COMA, Joseph Zorc
- 12 Approach to multisystem trauma, Lance Brown
- 13 Sepsis, Brent King
- 14 Anaphylaxis/allergic reactions, Suzanne Beno

SECTION II: Approach to the Trauma Patient

- 15 Trauma in infants, Gail Stewart, Ameer Mody
- 16 Oral, ocular, maxillofacial trauma, Ran Goldman
- 17 Head trauma, Vince Grant
- 18 Neck trauma, William K. Mallon, Jan Shoenberger
- 19 Upper extremity trauma, Michael Burg, Sieuwert-Jan ten Napel
- 20 Lower extremity trauma, Besh Barcega, Lilit Minasyan
- 21 Pelvic and genitourinary trauma, Peter Auerbach
- 22 Compartment syndrome, Christian Vaillancourt, Ian Shrier
- 23 Spinal trauma, Andrew Wackett
- 24 Thoracic Trauma, Barbara McDevitt
- 25 Abdominal trauma, Art Cooperman
- 26 Burns, Nicholas Tsarouhas
- 27 Neurovascular injuries, Isabel Barata

SECTION III: Approach to Unique Problems of Infancy

- 28 Apparent life threatening events (ALTE), Andrew DiPiero
- 29 Inborn errors of metabolism, T. Kent Denmark
- 30 Congenital Heart Disease, Alson S. Inaba
- 31 Excessive crying, Marilyn Hicks
- 32 Fever in the well appearing young infant, David Jaffe
- 33 Urinary tract infection, Marc Gorelick
- 34 Stridor in infancy. Antonio Muniz
- 35 Vomiting, spitting up, and feeding difficulties, Barbara McDevitt

- 36 Failure to thrive, Todd Mastrovitch
- 37 Minor Infant Problems, Jon Valenta
- 38 Jaundice, Niranjana Kissoon
- 39 Neonatal skin disorders, Antonia Muniz

SECTION IV: Approach to Acutely Ill Patient

- 40 Seizures, Jonathan Murr, Pamela Okada
- 41 Headaches, Tom Thompson
- 42 Conditions resulting in increased intracranial pressure, Gail Stewart, Tommy Kim
- 43 Central nervous system infections, James Wilde
- 44 Central nervous system vascular disorders, Stuart Lewin, Franz Babl
- 45 Brain tumor, Ann Klasner
- 46 Disorders of movement, Martin Herman
- 47 Peripheral and neuromuscular disorders, Jay Pershad

HEENT/NECK

- 48 Eye disorders, Neal Schambain
- 49 Epistaxis, Kenneth Briskin
- 50 Sinusitis, Bob Acosta
- 51 Ear disorders, Irene Tien
- 52 Oral lesions, Esther Sampayo
- 53 Dental disorders, Linda Brown
- 54 Neck infections, Amy Puchalski
- 55 Neck masses, Amy Puchalskim

RESPIRATORY

- 56 Acute asthma, Sharon Smith
- 57 Bronchiolitis, Deborah Levine, Shari Platt
- 58 Pneumonia/pneumonitis, Shari Platt, Deborah Levine
- 59 Cystic fibrosis, Eron Friedlaender
- 60 Upper airway disorders, Bruce Wright, Terry Klassen

CARDIOVASCULAR

- 61 Syncope, Ted Glynn, Earl Reisdorff
- 62 Chest pain, Earl Reisdorff
- 63 Dysrhythmias, Ghazala Sharieff
- 64 Pericarditis/myocarditis/endocarditis, Ghazala Sharieff
- 65 Hypertensive emergencies, Tdd Wylie
- 66 Post-surgical conditions and transplantation, Richard Chinnock, Grace Kim
- 67 Valvular heart disease, Mark McIntosh

INFECTIOUS DISEASE

- 68 Bacteremia, Elizabeth Alpern
- 69 HIV and other immunosuppressive conditions, Mrina Catalozzi

- 70 Sexually transmitted diseases, Cynthia Mollen
71 Selected infectious diseases, Robert Olympia, Samir Shah

GASTROINTESTINAL

- 72 Vomiting/diarrhea, Courtney Mann
73 Appendicitis, Steve Rothrock
74 Intussusception, Jonathan Singer
75 Gastrointestinal bleeding, Stephen Teach
76 Pyloric stenosis, David Cassidy
77 Constipation, David Cassidy, Wohl
78 Gastrointestinal foreign body, Madeline Joseph, Craig Kizer
79 Hepatitis, Evan J. Weiner, Madeline Matar Joseph
80 Pancreatitis, Madeline Joseph, Mardi Steere
81 Post-liver transplantation, Jill Baren
82 Inflammatory bowel disease, Barbara Pena
83 Malrotation and midgut volvulus, Rachel Stanley
84 Hernia, Michael Witt, John Brancato
85 Gallbladder disorders, Marc Linares

GENITOURINARY/RENAL

- 86 Urinary Tract Infections in Children and Adolescents, Biesbroeck, Daan Francis Mencl
87 Testicular Torsion, Martin Herman
88 Renal disorders, Suzanne Beno
89 Penile/testicular disorders, Roger Band

OB/GYN

- 90 Ectopic pregnancy, Dan Brennan
91 Pregnancy related complications, Angela Mills, Betsy Datner
92 Menstrual disorders, Jill Posner
93 Ovarian disorders, Robert Cloutier, Beverly Bauman
94 Vaginal and urethral disorders, Robert Cloutier, Beverly Bauman

MUSCULOSKELETAL/RHEUMATOLOGIC

- 95 Musculoskeletal disorders in systemic diseases, Blake Spirko, Allison Brewer
96 Bone, joint and spine infections, Charles Macias
97 Muscle and connective tissue disorders, Vivian Hwang
98 Overuse syndromes and inflammatory conditions, Charles Macias, Richard Gabor
99 Rhabdomyolysis, Nicole Sroufe, Rachel Stanley
100 Diseases of the hip, Paul Ri

IMMUNOLOGIC/ALLERGIC

- 101 Serum sickness, Lee Benjamin
102 Vaccination related complaints and side effects, Franz Babl, Stuart Lewena
103 Tetanus prophylaxis, Frederick Abrahamian, David Talan
104 Rabies Postexposure Proph, Frederick Abrahamian, David Talan

ENDOCRINE

- 105 Diabetic Ketoacidosis, Nate Kuppermann, Nicole Glaser
106 Hypoglycemia, Nicole Glaser, Nate Kuppermann
107 Steroid Dependent Child, Ameer Mody
108 Addisonian crisis, Lynn Cimpello, Ameer Mody
109 Thyrotoxic Dicosis, Lynn Cimpello, Ameer Mody

METABOLIC

- 110 Dehydration and disorders of sodium balance, Ian Maconochie, Alan Nager
111 Metabolic acidosis, John Brancato
112 Metabolic alkalosis, John Brancato
113 Hypokalemia, Eric Carter
114 Hyperkalemia, Eric Carter
115 Hypocalcemia, Eric Carter

PSYCHIATRIC/BEHAVIORAL

- 116 Psychobehavioral disorders, Thomas Chun
117 Major depression and Suicidality, Jackie Grupp-Phelan
118 Sexual abuse, Matt Seibel
119 Physical abuse and child neglect, Irene Tien

DERMATOLOGIC

- 120 Skin and soft tissue infections, Mike Muzynski
121 Erythema multiform major and minor, Antonio Muniz
122 Henoch-Schonlein Purpura, Antonio Muniz
123 Classic viral exanthems, Antonio Muniz
124 Dermatitis, Antonio Muniz
125 Infestations, Antonio Muniz
126 Other important rashes, Antonio Muniz

HEMATOLOGIC/ONCOLOGIC

- 127 Sickle cell disease, Tim Givens
128 Cancer and cancer associated disease, Peter Sandowitz
129 Idiopathic thrombocytopenic purpura and other platelet disorders, Peter Sandowitz
130 Coagulation Disorders
131 Hemolytic uremic syndrome, Souid Abdul-Kader, Boura'a Bou Aram
132 Utilizing blood bank resources, transfusion reactions and complications, Souid Abdul-Kader, Boura'a Bou Aram

- 133 Classic pediatric injections, Richard Cantor
- 134 Toxic alcohols, Kevin Osterhoudt
- 135 Drugs of abuse, John Tilelli
- 136 Adverse effects of anticonvulsants and psychotropic agents, Richard Shih
- 137 Cardiovascular agents, John Tilelli

SECTION V. Approach to Environmental Illness/Injury

- 138 Near drowning and submersion injuries, T. Kent Denmark
- 139 Hypothermia, Paul Ishimine
- 140 Hyperthermia, Paul Ishimine
- 141 Bites and stings, Sean Bush
- 142 Electrical injury, Ken Kwon, Carl Schultz
- 143 Inhalations and exposures, Mark Hostedler
- 144 Dysbarism, John Santamaria
- 145 High altitude associated illnesses, Mark Roback, Bill McDonnell

SECTION VI: The Practice Environment

- 146 The community hospital, Al Sacchetti, John Brennan
- 147 EMS and transport, George Foltin
- 148 Ethics and end of life issues, Jill Baren
- 149 Patient safety, medical errors and quality of care, David John
- 150 EMTALA, Todd Taylor
- 151 Issues of consent and emancipated minor status, Cynthia Jacobstien
- 152 Disaster preparedness for children, Stuart Weiss
- 153 Family presence, Mirna Farah
- 154 The child-friendly ED: practices, policies and procedures, Susan Fuchs
- 155 Triage, Sharon Mace, Thom Mayer
- 156 Post-exposure prophylaxis, Esther Chen
- 157 Violence: Interpersonal, gang and domestic, Joel Fien, Megan Bair-Merritt
- 158 Approach to pain management, Kelly Young

SECTION VII: Procedures, Sedation, Pain Management and Devices

- 159 Procedural sedation and analgesia, Steven Green, Baruch Krauss
- 160 Wound management, James Callahan
- 161 Vascular access, Frances Nadel
- 162 Foreign body removal, Joseph Pagane
- 163 Feeding tubes, Andrew Mason; Kelly Keogh
- 164 Tracheostomy tubes, Jill Posner
- 165 Noninvasive and mechanical ventilation, John Tilelli
- 166 Incision and drainage, John O'Brien, Sean Isaac

- 167 Ventriculoperitoneal and other intracranial shunts, George Woodward
- 168 Thoracostomy tube, Tom Terndrup
- 169 Hernia reduction, Mark Clark
- 170 Access of ports and catheters and management of obstruction, Neal Schambain
- 171 Lumbar puncture, Kathleen Brown, Diane Berkowitz
- 172 Local and regional anesthesia, Chris King, Kimberly Roth
- 173 Management of digit injuries and infections, Essi Jacome
- 174 Epistaxis control, Kenneth Briskin
- 175 Removal of ocular foreign body, Greg Garra
- 176 Eyemakers, Al Sacchetti
- 177 Paraphimosis reduction, Fred Schwartz
- 178 Reduction and splinting techniques, Greg Garra
- 179 Ultrasonography, Barry Gilmore, Jay Pershad
- 180 Pericardiocentesis, Robert Steele, Andrea Thorp

**SECTION VIII: Differential Diagnosis Algorithms,
Lance Brown**

- 181 Headaches
- 182 Abdominal pain
- 183 Cyanosis
- 184 Vomiting
- 185 Chest pain
- 186 Near syncope/syncope
- 187 Muscular weakness/paralysis
- 188 Limp
- 189 Lymphadenopathy
- 190 Wheezing
- 191 Hematuria
- 192 Hypertension
- 193 Jaundice
- 194 Pallor
- 195 Arthralgias/arthritis
- 196 Stridor
- 197 Vaginal bleeding
- 198 Weakness
- 199 Weight loss
- 200 The septic appearing child
