TABLE OF CONTENTS

Preface 1

Introduction

Section I: Exposure and Closure of the Abdomen

Chapter 1: Open Abdominal Access and Closure

Chapter 2: Laparoscopic Abdominal Access and Closure

Section II: Primarily Malabsorptive Procedures

Chapter 3: Biliopancreatic Diversion

Open Scopinaro Technique

Laparoscopic Scopinaro Technique

Chapter 4: Biliopancreatic Diversion/Duodenal Switch

Open Technique

Laparoscopic Technique

Section III: Malabsorptive/Restrictive Procedures: Gastric Bypass

Chapter 5: Open Roux-en-Y Gastric Bypass

Technique

Alternative Approaches

Vertical Roux-en-Y Gastric Bypass

Fobi II Vertical Banded Roux-en-Y Gastric Bypass

Chapter 6: Laparoscopic Roux-en-Y Gastric Bypass

Technique

Alternative Approaches

Linear Roux-en-Y Gastric Bypass

Handsewn Roux-en-Y Gastric Bypass

Section IV: Restrictive Procedures

Chapter 7: Laparoscopic Adjustable Gastric Banding

Chapter 8: Open Gastric Segmentation

Chapter 9: Vertical Silastic Ring and Banded Gastroplasty

Open Vertical Silastic Ring Gastroplasty Technique

Open Vertical Banded Gastroplasty (Mason Procedure) Technique

Laparoscopic Vertical Banded Gastroplasty (Mason Approach) Technique

Laparoscopic Vertical Banded Gastroplasty (Champion Approach) Technique

Chapter 10: Sleeve Gastrectomy

Open Technique
Magenstrasse and Mill Operation

Laparoscopic Technique

Section V: Other and Investigative Procedures

Chapter 11: Intragastric Balloon
Insertion Technique

Chapter 12: Gastric and Vagal Pacing
Laparoscopic Electrode Placement Technique
Alternative Open Electrode Placement Technique, Caveats
Laparoscopic Vagal Pacing Technique
Alternative Open Vagal Pacing Technique, Caveats

Chapter 13: Endoluminal Sleeve
Placement Technique

Chapter 14: Ileal Transposition
Open Technique
Laparoscopic Technique

Chapter 15: Duodenal-Jejunal Exclusion
Laparoscopic Technique
Alternative Laparoscopic Technique
Alternative Open Technique

Chapter 16: Endoluminal Procedures
Schematics

Chapter 17: External Gastric Plication
Schematics

Chapter 18: Transgastric Procedures
Possible Transgastric Gastrojejunostomy Technique

Chapter 19: Robotics
Schematics

Chapter 20: Micro-Orifice Surgery
Open Exposure and Closure Technique

Section VI: Revisional Surgery

Chapter 21: Jejunoileal Bypass Revision
Takedown End-to-Side Jejunoileostomy Technique
Takedown End-to-End Jejunoileostomy Technique

Chapter 22: Laparoscopic Adjustable Gastric Banding Revision
Takedown Technique

**Chapter 23: Vertical Silastic Ring and Banded Gastroplasty Revision**
Takedown Vertical Silastic Ring or Banded Gastroplasty and Vertical Banded Gastroplasty Restoration Technique
Revision Vertical Banded Gastroplasty to Roux-en-Y Gastric Bypass Technique
Revision Vertical Banded Gastroplasty to Biliopancreatic Diversion or Duodenal Switch and Sleeve Gastrectomy Technique

**Chapter 24: Roux-en-Y Gastric Bypass Revision**
Takedown Undivided Roux-en-Y Gastric Bypass and Restoration Gastric Continuity Technique
Takedown Divided Roux-en-Y Gastric Bypass and Restoration Gastric Continuity Technique
Repair Anatomically Failed Roux-en-Y Gastric Bypass Technique
Banding of a Roux-en-Y Gastric Bypass Technique
Roux-en-Y Gastric Bypass Revision to a Long Limb Roux-en-Y Gastric Bypass Technique
Roux-en-Y Gastric Bypass Revision to Sleeve Gastrectomy or Duodenal Switch Technique

**Chapter 25: Sleeve Gastrectomy Revision**
Revision Sleeve Gastrectomy by Re-resection of Greater Curvature Technique
Revision Sleeve Gastrectomy to Roux-en-Y Gastric Bypass Technique

**Chapter 26: Biliopancreatic Diversion/Duodenal Switch Revision**
Lengthening the Common Channel of a Biliopancreatic Diversion or Duodenal Switch Technique
Shortening the Common Channel of a Biliopancreatic Diversion or Duodenal Switch Technique
