

INDICE DEI CAPITOLI

From disease to syndrome: how did we get there

Doralisa Morrone

Transferring new concepts from theory to practice

Enrico Orsini

Is ischemia relevant to prognosis?

Alda Huqi

Mechanisms precipitating myocardial ischemia

Giacinta Guarini

Updating diagnostic algorithms

Mario Marzilli

Multiple tests or multiple imaging techniques

Mirjana Sredojević, Riccardo Liga, Alessia Gimelli

Coronary revascularization: friend or foe

Doralisa Morrone

Antianginal therapy in 2023

Mario Marzilli

Knowledge gaps in myocardial ischemic syndromes

Mario Marzilli
