

INDICE DEI CAPITOLI

Fundamentals of tumour immunology

Giuseppe V. Masucci, Lisa Villabona

Immune oncology and immune responsiveness

Ena Wang, Domenico Mallardo, Francesco M. Marincola

The role of the tumor microenvironment

Assia Hijazi, Jérôme Galon

Biomarkers in immunotherapy

Giuseppe Palmieri, Vincenza Caridi, Nicola Normanno

Mechanisms of resistance to immunotherapies

Mariaelena Capone, Gabriele Madonna

Immunotherapy in metastatic melanoma

Claudia Trojaniello, Francesca Sparano, Paolo Antonio Ascierto

Immunotherapy and lung cancer

Alessia Spagnuolo, Cesare Gridelli

Immunotherapy in breast cancer

Liliana Ascione, Celeste Santoro, Dario Trapani, Giuseppe Curigliano

Immunotherapy in gastrointestinal cancer

Antonio Avallone, Alfredo Budillon

Immunotherapy in non-melanoma skin cancers

Lucia Festino, Margaret Ottaviano

Immunotherapy in urothelial cancers and renal cell carcinoma

Sergio Bracarda, Claudia Mosillo, Annalisa Guida

Immunotherapy in head and neck cancer

Paolo Bossi, Maria Grazia Ghi

Combination strategies

Omid Hamid, Francesca Sparano, Paolo Antonio Ascierto

Adoptive cellular therapy (ACT) in melanoma

Elham Nasrollahi, Diwakar Davar

Management of immune checkpoint inhibitor side effects

Benjamin Switzer, Douglas B. Johnson, Igor Puzanov

The role of gut microbiota in cancer immunotherapy efficacy

Serena Galiè, Carlotta Catozzi, Luigi Nezi
