

INDEX:

Foundations and insights - *The evolution of anatomical classification of abdominal aortic aneurysms*

Salvatore Bruno, Alessandro Zammito, Sara Monteleone, Matteo Tozzi, Felice Pecoraro, Domenico Mirabella

Foundations and insights - *Biomechanics and aneurysm progression: key factors in aortic disease*

Maurizio Domanin, Dario Arnaldo Domanin, Jasper F. de Kort, Daniele Bissacco, Gabriele Piffaretti, Santi Trimarchi

Foundations and insights - *Inflammation and pathophysiology: drivers of aneurysm development*

Flavia Del Porto, Costanza Margheritini, Chiara Pranteda, Gabriele Nalli, Giorgio Sesti, Maurizio Taurino

Foundations and insights - *Genetic insights: new frontiers in diagnosis and prevention*

Annarita Santoro, Enrico Rinaldi, Fiorenza De Lisio, Alexandra Fedorovna Bezborodova, Germano Melissano, Roberto Chiesa

Surgical and endovascular techniques - *Open surgery for abdominal aortic aneurysms: techniques, renal protection, and complications*

Ottavia Borghese, Francesco Sposato, Antonio Luparelli, Nunzio Montelione, Francesco Stilo, Yamume Tshomba

Surgical and endovascular techniques - *Parallel grafts and chimney techniques: applications and limitations*

Gianmarco de Donato, Edoardo Pasqui, Leonardo Pasquetti, Alessandra Fittipaldi, Chiara Barillà, Filippo Benedetto

Surgical and endovascular techniques - *Endovascular innovations: custom devices for juxtarenal aneurysms*

Antonio Cappiello, Enrico Gallitto, Carmine Polisenio, Rodolfo Pini, Gianluca Faggioli, Mauro Gargiulo

Surgical and endovascular techniques - *Physician-modified endografts and in-situ fenestrations: when and how*

Davide Esposito, Martina Bastianon, Francesco Squizzato, Michele Piazza, Giovanni Pratesi, Franco Grego

Surgical and endovascular techniques - *Hypogastric artery aneurysms: indications for preservation or occlusion*

Umberto Marcello Bracale, Giulio Accarino, Davide Turchino, Alessia Di Girolamo, Francesca Miceli, Luca di Marzo

Surgical and endovascular techniques - *Managing ruptured abdominal aortic aneurysms: current strategies*

Martina Cambiaghi, Andrea Melloni, Luca Bertoglio, Stefano Bonardelli

Surgical and endovascular techniques - *Mycotic and inflammatory aneurysms: unique challenges in treatment*

Raffaele Pulli, Sergio Zacà, Sara Speziali, Lucia Di Stefano, Walter Dorigo, Domenico Angiletta

Surgical and endovascular techniques - *Infections and reinterventions in abdominal aortic aneurysms*

Arnaldo Ippoliti, Fabio M. Oddi, Bernardo Orellana Davila, Luca Tonidandel, Giulia A. Cannizzaro, Eugenio Martelli

Challenges and special considerations - *Advanced imaging in abdominal aortic aneurysms: new tools and functional imaging in early and late complications detection during follow-up*

Chiara Lauri, Paolo Perini, Antonio Freyrie, Alberto Signore, Alexandra Catasta

Challenges and special considerations - *Gender-specific considerations in aortic aneurysm management*

Daniela Mazzaccaro, Lorenzo Gibello, Paolo Righini, Gianfranco Varetto, Giovanni Nano, Fabio Verzini

Challenges and special considerations - *Fragile patients: decision-making and surgical approaches*

Roberto Silingardi, Nicola Leone, Stefano Gennai, Giulia Colonna, Luigi Rizzo, Pasqualino Sirignano

Challenges and special considerations - *Training and simulation in aneurysm management*

Raffaella Berchiolli, Luigi Federico Rinaldi, Nicola Troisi, Giulia Bertagna, Massimo Ruggiero, Enrico Maria Marone
