

## CONTENTS

<i>Preface</i> .....	III
<i>Authors</i> .....	V
<b>1. Anthropological evolution of mechanisms of labor and delivery in humans</b> .....	1
<i>(Enrico Ferrazzi, Claudio Crescini)</i>	
<b>2. Historical evolution of obstetrics technologies</b> .....	9
<i>(Enrico Ferrazzi, Claudio Crescini)</i>	
<b>3. Reconciliation of ultrasound and NMR imaging of human delivery with concepts and images in scientific literature</b> .....	13
<i>(Enrico Ferrazzi, Claudio Crescini)</i>	
<b>4. New technologies for the assessment of risk of labor at late preterm early term</b> ...	23
<i>(Daniele Farsetti, Herbert Valensise)</i>	
<b>4.1 Maternal and fetal hemodynamic</b> .....	27
<i>(Daniele Farsetti)</i>	
<b>4.2 Fetal growth assessment in the late third trimester</b> .....	33
<i>(Alessandra Familiari, Davide Pisani)</i>	
<b>4.3 Molecular interrogation of placental function</b> .....	40
<i>(Anna Locatelli, Valentina Giardini)</i>	
<b>5. Old and new technologies for labor induction, an overview</b> .....	49
<i>(Claudio Crescini, Enrico Ferrazzi)</i>	
<b>6. Pain management in labor and delivery, technologies, culture, ideologies</b> .....	57
<i>(Enrico Ferrazzi, Claudio Crescini)</i>	
<b>6.1 Walking epidural</b> .....	61
<i>(Giuseppe G. Sofi, Luigi G. Grassi)</i>	
<b>6.2 Nitrous oxide for pain modulation in labour and delivery</b> .....	67
<i>(Fabio Facchinetti)</i>	
<b>6.3 Labor and birth in water pool</b> .....	70
<i>(Patrizia D'Oria)</i>	
<b>7. Sonographic dynamic imaging in labor and delivery</b> .....	77
<i>(Enrico Ferrazzi, Claudio Crescini)</i>	
<b>8. Pocus (point of care ultrasound) at third stage of labor</b> .....	89
<i>(Enrico Corno, Gabriella Maria Celora, Andrea Dall'Asta)</i>	

<b>9. New technologies for operative vaginal delivery</b> .....	99
<b>9.1 Prevention by maternal active labor</b> .....	100
<i>(Martina Caglioni, Nadia Rovelli)</i>	
<b>9.2 Kiwi cup and other hand-operated cups, rotation and progression by flexion</b> .....	114
<i>(Enrico Ferrazzi, Claudio Crescini)</i>	
<b>9.3 The OdonAssist™ device: progression by making sliding easy</b> .....	121
<i>(Michele Orsi)</i>	
<b>9.4 Shoulder dystocia: unresolved issues and evolving strategies in clinical management, from counselling women at risk to L&amp;D emergency</b> .....	129
<i>(Enrico Ferrazzi, Claudio Crescini)</i>	
<b>10. Uterine tamponade systems for postpartum haemorrhage: mechanisms, clinical applications, and evidence-based practice</b> .....	137
<i>(Claudio Crescini, Enrico Ferrazzi)</i>	
<b>11. Post partum assessment of pelvic floor dysfunction by ultrasound and treatment</b> .....	149
<i>(Carmela Coppola)</i>	
<b>12. New suturing technologies in obstetric surgery: medicated, barbed threads.</b> .....	164
<i>(Claudio Crescini, Enrico Ferrazzi)</i>	
<b>13. Artificial Intelligence in the Delivery Room</b> .....	169
<i>(Antonio Malvasi, Tommaso Difonzo, Giorgio Maria Baldini, Lorenzo E. Malgieri)</i>	
<b>14. Generative artificial intelligence and CTG in labor</b> .....	181
<i>(Anna Franca Cavaliere, Yoko Zecchini, Federica Perelli, Annalisa Vidiri, Marco Parasiliti)</i>
